Therapeutic Benefits

Research has found that surgical patients with views of nature have shorter post-operative stays, take less pain medication and experience fewer complications. The Healing Garden provides a unique environment of beauty, silence and serenity — the kind that nurtures the body, mind and spirit and promotes healing. It is a place to experience the outdoors as the seasons and world change around us. The garden is a place to think, pray, grieve, hope, give thanks and remember.

How You Can Help The Garden Grow

The Foundation seeks funding for the Garden strictly through donations.

Please consider helping us grow the Healing Garden through a donation to the Foundation to support the Garden. For recognition of your kindness and generosity, your name or that of a memorial or honorarium will be displayed on pavers, walkway tiles, trees, benches or the pool surround within the Healing Garden. We are grateful for all gifts of any size. To schedule a tour of the Healing Garden, contact Community Memorial Foundation at 262.257.3760

Checks may be made payable to:
Community Memorial Foundation

As a foundation, we promote and enhance the health for all individuals of our community through the development and management of resources in collaboration with the mission of Community Memorial Hospital.

FOUNDATION

WHERE HOPE GROWS.
At Community Memorial Hospital, we strongly believe a hospital’s surroundings can positively affect the mood, stress-level and overall well-being of our patients and their families. In fact, clinical studies have found that viewing nature produces positive changes in a patient’s blood pressure, heart activity, muscle tension and brain activity. That’s why, with your help, we created the Healing Garden.

SURROUNDINGS THAT HEAL
Located on the hospital’s campus, The Healing Garden is approximately 7,500 square feet and is easily viewed and accessed from the main building as well as the parking lot. It is home to trees, plants, flowers, sitting areas, a fountain and other naturally inspiring scenery. It serves as a quiet oasis, a respite and a place of solitude for our patients, their families and our staff. Quite simply, the Healing Garden is where we can all find reduced stress, increased energy and restored hope.

TOGETHER WE PROVIDE HOPE
All gardens, like life and recovery, are a work in progress. Every year the UW-Extension Master Gardener Volunteers and CMH Grounds staff strive to maintain and enhance the beauty of the Garden through replacement planting and the addition of new perennial and annual flowers to add color and interest to the Garden. Support from Community Memorial Foundation along with donations from individuals and businesses have provided new plants and garden art. However, we need your help to ensure the garden continues to flourish.

PERSONALIZE YOUR GIFT
Please check the item you are ordering and print the information exactly as you would like it to appear. Spaces count as characters.

- □ 4” x 8” paver – $250 • Maximum 16 characters per line - 2 lines
- □ 12” x 18” granite tile – $750 • Maximum 20 characters per line - 3 lines
