Verification of Student Online Modules

1. Go to http://fhverification.azurewebsites.net/ and login using your school e-mail and your password.

2. Next to each student’s name will be a piece of paper. Click on that icon.
3. Once you click the icon a box like this will pop up. A green check mark means that they have completed the modules or an incomplete for modules not completed.

4. It is the coordinators responsibility to make sure that the modules are complete for each student for the **current semester**. The list of modules that a student must complete is on the Student Verification Process Checklist located on our website.

   *The exception is Froedtert Health staff does not need to complete the safety or compliance module.*
