To Your Health!

Renogram – Outpatient

Your doctor has ordered a Renogram exam to be conducted in the Nuclear Medicine department on the 2nd floor of the 87th Street Specialty Clinics building.

Appointment Information

Time: ___________________________ If you are not able to keep your appointment, please call (414) 805-3771.
Day: ___________________________ Date: ___________________________

If you are pregnant (or think you may be pregnant), or if you are nursing a baby, please inform your doctor before your appointment is scheduled.

On the day of your examination, please bring with you a list of your allergies and all medications you are presently taking. The technologist will request this list at the time of your examination.

BEFORE THE TEST

There is no special preparation for this test. You may have something to eat before your appointment. Please check with your doctor if you are to take your medications.

WHAT IS A RENOGRAM?

The Renogram exam will look at the function of your kidneys. The test takes about 2 hours. You will be lying on your back on a table. It is important that you hold still during the exam or the images will be blurred.

The technologist will start an I.V. in a vein in your arm.

AFTER THE TEST

After you leave the department, a doctor who specializes in Nuclear Medicine will study the images and prepare a written report within 24 hours.

Your doctor will inform you of the results.

REMEMBER...our staff is here to help you. If you have questions about any part of this test, please ask.

Please arrive 10 minutes prior to your appointment to complete the registration process. To find Nuclear Medicine, enter the campus on 87th street. Follow the signs to Parking Area 3. Take the parking structure elevator to level D. The bridge leads to the 2nd level of the Specialty Clinics Building. Follow the signs to Nuclear Medicine.
