Ultrasound – Outpatient

Your doctor has ordered an ultrasound exam to be conducted in the Froedtert Hospital Radiology department on the 2nd floor of the Froedtert Specialty Clinics. Please report directly to the radiology reception area.

You are scheduled for an US of your ______________________ on _______________ at __________
(day/date)                                        (time)

** If you are not able to keep your appointment, please call (414) 805-3700. **

Parking Information: (refer to map on last page) Please park in the following area: □ Parking Area Three (3)

Beginning January 1st, 2011 parking for patients and visitors will be free. Make sure you bring your parking ticket in to get it validated.

***Per our hospital policy, children under 18 must be supervised by a responsible adult, that is not the patient. ***

WHAT IS AN ULTRASOUND?

The Ultrasound examination will assist the doctor in evaluating your condition. An ultrasound is a test which utilizes a high frequency sound wave similar to that of sonar. (Similar to how a ship searches for a submarine)

There is no radiation involved in this exam and may take anywhere from 45 to 60 minutes. During your examination, you will be asked to lie on your back on the ultrasound cart. Warm ultrasound gel, which helps to transmit sound waves, is then applied to the body area to be examined.

Because we are a teaching facility, there may be both ultrasound students and radiology residents that will participate in your exam.

PREPPING FOR YOUR EXAM

Unless told otherwise or contacted by the ultrasound department, there is no special preparation for your exam. You may eat and drink as normal and take any medications that you normally take.

ARRIVAL

Please arrive 15 minutes prior to your appointment time. Because we feel very strongly about providing high quality patient care to all of our patients, we ask that you arrive on time for your appointment. If you arrive more than 15 minutes past your appointment time, we will do our best to accommodate you, but may ask you to reschedule or wait...
until our next available appointment opens up. We appreciate your attention to this and hope this will help us serve you better.

AFTER THE TEST

After the sonographer has finished the ultrasound examination, he/she may step out of the exam room to review the images with the radiologist. The doctor may wish to perform additional scans to assist him/her in reading your exam. The ultrasound gel will then be removed from the scanned area and you will be free to get dressed and leave. The report will be available to your ordering doctor within 2-3 business days and we encourage you to discuss the results with him or her. If you are using MyChart, your results will be released after 5 days.

FOR FURTHER INFORMATION

Patients are encouraged to call with any concerns or questions regarding their exam. The US Department can be reached at (414) 805-3720 anytime. We are here to serve you 24 hours a day.

Remember…our staff is here to help you. If you have any questions about the procedure, please ask.

Thank you for choosing Froedtert
