

Waukesha County Health Data Report

A summary of secondary data sources

2015

Prepared by:

Center for Urban Population Health

1020 N. 12th Street, Suite 4180

Milwaukee, WI 53233

414.219.5100

www.cuph.org

www.healthofmilwaukee.org

This report was prepared by the Design, Analysis and Evaluation team at the Center for Urban Population Health. Carrie Stehman, MA, prepared this report. If there are any questions, please feel free to contact her at 414.219.5100.

The funding to prepare this report comes from five area health systems; Aurora Health Care, Children's Hospital, Columbia St. Mary's, ProHealth Care, and Wheaton Franciscan Health Care.

Table of Contents

Total Population	1
Demographics	2
Population Change by Race	3
Population Change by Age	4
Poverty	5
Total Births	6
Percent Births Receiving First Trimester Care	7
Percent Late or No Prenatal Care	8
Tobacco Use During Pregnancy	9
Low Birth Weight	10
Infant Mortality	11
Premature Birth	12
Birth Rate Ages 15-19	13
Birth Rate Ages 15-17	14
Years of Potential Life Lost (YPLL)	15
Number of Deaths and Mortality Rate	16
Age-Adjusted Mortality Rate	17
Average Age at Death	18
Number and Rate of Injury Deaths	19
Number and Rate of Suicides	20
Number and Rate of injury Hospitalizations	21
Number and Rate of Emergency Department Visits for Injuries	22
Number of Emergency Department Visits for Injury by Cause	23
Rate of Emergency Department Visits for Injury by Cause	24
Domestic Abuse	25

Child Abuse	26
Sexually Transmitted Diseases	27
HIV	28
Cancer Incidence	29
Cancer Incidence and Mortality Rates by Site	30
Number and Rate of Cerebrovascular Disease	31
Health Behaviors from Behavioral Risk Factors Surveillance Survey	32
County Health Rankings	33

Notes:

In the summer of 2014, the Center for Urban Population Health was enlisted to create reports detailing the health of various counties using secondary data. These health data reports are one piece of a variety of data sources being used by local health systems to describe their communities and the health priorities of their service areas. These reports were specifically developed to compliment a telephone survey being done in each county. Because of their complimentary nature, these reports are not all-inclusive. Indicators for which primary data are being collected were excluded from this report. In addition, rather than repurposing data from the comprehensive county rankings report created by the University of Wisconsin Population Health Institute (2015), the county level data from the rankings report is included in its entirety at the end of this report.

All of the data used in this report come from publicly available data sources. Data for each indicator were presented by race and ethnicity and gender when the data were available. Race data categorized as 'unknown' or 'missing' were rarely included in this report. Therefore, not all races are represented in the data that follows.

In some cases data were not presented by the system from which it was pulled due to their internal confidentiality policies which specify that data will not be released when the number is less than five. In other cases, the data were available but the rates or percentages are not presented in this report. This is due to the indicator having small numbers in the numerator or denominator resulting in rates or percentages that were subject to large year to year fluctuations and, as such, would not have provided a meaningful representation of the data for the population subset.

When applicable, Healthy People 2020 objectives are provided for each indicator. These objectives were not included unless the indicator directly matched with a Healthy People 2020 objective.

University of Wisconsin Population Health Institute. *County Health Rankings 2014*. Accessible at www.countyhealthrankings.org.

Waukesha County - Secondary Data Report

Total Population - Waukesha Co.			
	2013 (#)	20123 (%)	State 2013
Total Population	391,200	100.0%	5,706,871
