For those who test positive for COVID-19, Froedtert & MCW patient monitoring lowers odds of being hospitalized by 30%.

**Six Steps To Remote Patient Monitoring For COVID-19**

1. **Is it COVID-19?**
2. **Schedule your COVID-19 test if testing is recommended.**
3. **Your COVID-19 test is positive. Now what?**
4. **The remote patient monitoring service sends you an enrollment notification.**
5. **Nurses give you real-time support during your recovery using GetWell Loop.**

"There aren’t many other experiences in health care that you can get without having to call someone to make an appointment."
