A message from Cathy Jacobson to the employees, providers, business partners and colleagues of Froedtert Health:

As an organization, we are committed to honest and ethical behavior and to conduct our business with integrity. Throughout our history, as we have served our patients and our community, we have earned a reputation for honor and integrity. Our business is built on this trust and this reputation. It’s about sustaining a place where we are all proud to work; it’s about who we are as an organization.

The practice of behaving honestly, ethically and with integrity is an individual responsibility. We make decisions about how to conduct ourselves every day as we go about our work. Each of us is accountable for the actions that we decide to take.

To help you with the legal and ethical questions you may encounter in your daily work, we have prepared the Froedtert Health Code of Business Conduct. Conducting Business Practices with Respect, Honesty and Integrity

I will perform my job duties honestly, with respect and integrity.

Everyone working at, or for, Froedtert Health is expected to do the right thing. This includes being honest with and respectful to: patients, direct reports, leaders, co-workers, business partners, vendors, the general public and one another. Froedtert Health expects that you will not lie, cheat, steal or do anything that would harm or injure the reputation of yourself or Froedtert Health.

Code of Corporate Ethics Policy FH-COM.032

Compliance with the Law

I will follow all laws, rules, regulations, policies and procedures that apply to me and my specific job duties.

Everyone must follow the laws, rules, regulations, policies and procedures that apply to their individual jobs. Just like the laws in the community that you must follow, such as traffic laws, health care is no different. These rules are in place to keep you, your coworkers, our patients and customers safe. An example of a rule we must follow is that staff must not steal from our patients, other staff members or the organization. Staff are not expected to know every single health care-related law, but you are expected to know, understand and follow the laws that are relevant to your specific job duties. It is also important that all staff members know where to locate Froedtert Health policies and procedures and to ask for assistance if they need help finding them. If you are ever unsure about whether an action is in compliance with a law or policy, discuss it with your leader or the Compliance Department. If you are unsure of what to do in any situation, ask before you act.

Background Checks

I understand that Froedtert Health will conduct formal background and credentialing checks on all staff, providers and certain vendors/contractors.

To reduce risk and promote a safe environment for patients, customers, staff members and our organization, Froedtert Health strives to only hire or contract with those that share the same values and integrity. As a result, an appropriate background check is conducted before staff, providers, vendors and contractors start working. We do not employ or enter into contracts with individuals or
entities that cannot participate in federal or state health care programs. Staff, providers, vendors and contractors must obtain and maintain all appropriate licensure and/or certifications required for their job responsibilities or contracts. They are also required to report any changes in their status according to corporate policy.

I will attend and/or complete all mandatory training and education in the required timeframe.

To be competent and successful in your role and to carry out your job duties in a compliant manner, it is critical to take all education and training seriously and to complete it within the timeframe required. Staff are responsible to ask for clarification if they do not understand the education or what is required of them.

Failure to report suspected violations or non-compliance can be viewed as misconduct and may warrant corrective action up to and including termination of employment. These matters must be reported to the department leader, vice president or to the Compliance Department without delay.

Any business arrangement with a physician must be in writing and must be reviewed and approved by the Froedtert Health Legal Department.

**Conflicts of Interest**

I will disclose the existence and nature of any actual or possible conflicts of interest between my personal interests and the interest of the organization.
