

**Our specialists
look at cancer
from every
possible
perspective.**

It's an academic advantage that makes sure your plan is the right plan.

Whether your cancer is common or rare, for your best outcome, you need an entire team of specialists that looks at your cancer from every angle. Then, together with you, we explore every possible treatment option, including the latest clinical trials. These world-renowned physicians specialize in specific cancers and partner with you to create your personalized treatment plan based on the in-depth knowledge of every member of your team – cancer surgeons, radiation oncologists, medical oncologists, radiologists, nurses, pathologists, researchers and genetics experts. And you can connect to our Cancer Network close to home in Menomonee Falls, Milwaukee, New Berlin, Oak Creek or West Bend.

To find a cancer specialist call **866-680-0505** or visit froedtert.com/cancer
