Implementation Strategy
Community Health Improvement Plan
Community Memorial Hospital of Menomonee Falls, Inc.
Doing Business As:
Froedtert Menomonee Falls Hospital
Fiscal Year 2022-2024

Approved by Froedtert Menomonee Falls Hospital Board of Directors on 08/26/2021
This implementation strategy serves to describe how Froedtert Menomonee Falls Hospital will address the community needs as described in the CHNA Report. Effective July 1, 2021 in fiscal year 2022 to comply with federal tax law requirements set forth in Internal Revenue Code Section 501(r) and to satisfy the requirements set forth in IRS Notice 2011-52 and the Affordable Care Act for hospital facilities owned and operated by an organization described in IRC Section 501(c)(3).

A digital copy of this CHNA is publicly available at [https://www.froedtert.com/community-engagement](https://www.froedtert.com/community-engagement) or by calling 414-777-1926.

Date CHNA adopted by the Froedtert Menomonee Falls Hospital Board of Directors: 08/26/2021

Date CHNA made publicly available: 08/27/2021

Overview
Froedtert Menomonee Falls Hospital, founded in 1964 by the citizens of Menomonee Falls and surrounding communities and originally named Community Memorial Hospital, is a full-service hospital that specializes in cancer care, heart and vascular care, orthopaedics, women’s health and advanced surgical procedures. Froedtert Menomonee Falls Hospital is part of the Froedtert & MCW health care network, which includes Froedtert Hospital in Milwaukee, eastern Wisconsin's only academic medical center; hospitals in Kenosha, Manitowoc, New Berlin, Pewaukee, Pleasant Prairie and West Bend; and more than 40 primary and specialty care health centers and clinics.

Mission Statement
Froedtert & the Medical College of Wisconsin advance the health of the people of the diverse communities we serve through exceptional care enhanced by innovation and discovery.

Service Area
For the purpose of the Community Health Needs Assessment, the community is defined as Northeast Waukesha County and Germantown because the hospital derives 79.4% of discharges occur from this geography. All programs, activities, and partnerships under the CHNA will be delivered in Waukesha County. However, Froedtert Menomonee Falls Hospital’s total service area consists of Waukesha County as well as zip codes in southern Washington County and western Milwaukee County. Froedtert Menomonee Falls Hospital determines its primary and secondary service areas by completing an annual review and analysis of hospital discharges and market share according to various determinants. The map reflects the 25 zip codes.
Community Engagement Guiding Principles

1. Community Engagement is committed to health equity.
2. Froedtert Health serves all people. As such, Community Engagement builds partnerships and forges collaborations to strengthen the economic vitality and quality of life of all people in the communities we serve.
3. Timeliness is essential for success. Immediate presence of Community Engagement initiatives, digitally and/or experientially, will advance our community connection, community reach and brand.
4. Community Engagement will leverage Froedtert Health resources to benefit our community including our people, financial, time, marketing, IT and digital resources.
5. Presence in the community will be achieved in person and digitally, safely, thoughtfully and with support from internal partners.
6. Community Engagement will actively listen and respond to the needs of our community partners. We will prioritize our efforts aligned with our clinical strengths and mission.
Health Needs of the Community

Community Health Needs Assessment

Froedtert Menomonee Falls Hospital assesses the health needs of the communities it serves through a comprehensive data collection process from a number of key sources. Data and research included information from community members, public health officials, community leaders/experts, and non-profit organizations representing vulnerable populations in our service area. The following information/data sources were collected and taken into consideration for assessing and addressing community health needs:

- Key Informant Interviews
- Community Health Survey
- Community Partner/Agency Reports
- Secondary Data Reports

The CHNA Report and supporting information can be found at [https://www.froedtert.com/community-engagement](https://www.froedtert.com/community-engagement).

Identified Significant Community Health Needs in Waukesha County

Priorities across the CHNA Health Survey, Stakeholder Interviews and Secondary Data Reports

- Mental Health
- Nutrition
- Infectious Disease
- Substance Use & Abuse (Alcohol, Tobacco and Other Drugs)
- Chronic Disease
- Access to Health Care
- Transportation
- Safety/Violence
- Workforce Development
- Food Insecurity
- Housing/Homelessness
Froedtert Menomonee Falls Hospital Summary of Implementation Strategy

**Implementation Strategy Development Process**

**PHASE 1**
Data Collection and Analysis

**PHASE 2**
CHNA & Implementation Strategy Advisory Committee Workout Session

**PHASE 3**
CHNA & Implementation Strategy Development

**PHASE 4**
Review reports with Community Engagement Leadership and FMFH Executives

**PHASE 5**
Froedtert Menomonee Falls Hospital Board of Directors approval

Froedtert Menomonee Falls Hospital created a CHNA/Implementation Strategy Advisory Committee (Appendix A) consisting of members of the Community Outreach Steering Committee, Froedtert Menomonee Falls Board of Directors, community partners in Waukesha County, and Waukesha County Public Health Department along with hospital and health system leadership/staff. Members of the committee were selected based on their specific knowledge of health needs and resources in Waukesha County for a collective analysis of the findings from the Community Health Needs Assessment.

Based on the information from all the CHNA data collection sources, the most significant health needs were identified as:

- Infectious Disease;
- Mental Health;
- Substance Use & Abuse (alcohol, tobacco and other drugs);
- Access to Health Care;
- Chronic Disease;
- Nutrition;
- Workforce Development (healthcare career exploration);
- Transportation;
- Food Insecurity;
- Housing/Homelessness; and
- Safety/Violence.
Before the facilitated workout session in February 2021, members of the CHNA/Implementation Strategy Advisory Committee were asked to rate each health need based on the following criteria to identify the top priorities among the identified significant health needs:

- Impact: The degree to which the issue affects or exacerbates other quality of life and health-related issues.
- Feasibility: Can Froedtert Menomonee Falls Hospital address the need through direct programs, clinical strengths and dedicated resources?
- Partnerships: Are there current or potential community partners/coalitions?
- Health Equity: What disparities exist and how can we ensure that the disparities will be addressed?
- Measurable: What is the likelihood of being able to make a measurable impact on the problem?

The top ranked significant health needs included:

During the February 2021 workout session, under the direction of the Community Engagement Leadership Team and trained meeting facilitator; the CHNA planning process included six steps in developing the Implementation Plan:

- Reviewed the 2020 Community Health Needs Assessment results for identification and prioritization of community health needs
- Reviewed Impact 211 data, County Health Rankings, Community Outreach Health Clinic data, United Way of Greater Milwaukee & Waukesha County data and Waukesha County Health & Human Services data
- Reviewed previous CHNA/Implementation Plan priorities, programs and results
- Reviewed current hospital and community health improvement initiatives and strategies
- Select evidence-based strategies, partnerships and programs to address community health needs
- Ranked and selected priority areas

Of those significant health need categories, four overarching priorities were identified as the focus for Froedtert Menomonee Falls Hospital’s Implementation Plan for fiscal 2022 – 2024:

- **Population Health and Health Equity**;
- **Behavioral Health**;
- **Workforce Development (health care career exploration)**; and
- **Infectious Disease**
It is important to recognize that there is a dynamic relationship between people and their environments. Not only do people’s genes and health behaviors affect their health, but health is also influenced by factors such as employment status, transportation and food insecurity. Utilizing the social determinants of health framework (Figure 1) to understand and address the more upstream factors is important when improving the health of a community. Therefore, social determinates of health was identified as a priority health need in the Froedtert Menomonee Falls Hospital Implementation Strategy.

After the facilitated workout session in February 2021, suggested strategies were prioritized utilizing the social ecological model (Figure 2) as a framework to focus on efforts that influence behavior through a systems approach. The model helps increase understanding of how behaviors can be changed at the individual, interpersonal, organizational, community and policy levels.

Figure 1: Social Determinants of Health

![Figure 1: Social Determinants of Health](image1.png)

Figure 2: Social Ecological Model

![Figure 2: Social Ecological Model](image2.png)
Significant Health Needs Not Addressed

• **Tobacco Use:** Froedtert Menomonee Falls Hospital supports the Multi-Jurisdictional Coalition of Tobacco Free Community Partnership Dodge, Jefferson and Waukesha Counties.

• **Nutrition:** Froedtert Menomonee Falls Hospital supports the Waukesha County CHIPP by actively participating on the county-wide nutrition committee.

• **Food Insecurity:** Froedtert Menomonee Falls Hospital actively participates on the Waukesha County CHIPP Coalition by supporting initiatives through the county-wide nutrition committee. In addition, the hospital supports initiatives through the local food pantries.

• **Housing/Homelessness:** Froedtert Menomonee Falls Hospital supports the Milwaukee HealthCare Partnership through the Housing Navigation Program.

• **Safety/Violence:** Froedtert Menomonee Falls Hospital supports The Women’s Center, Violence Interrupter Program and a culture of see something say something.

Implementation Strategy Evaluation

Froedtert Menomonee Falls Hospital’s Community Engagement team along with the Community Outreach Steering Committee will regularly monitor and report on progress towards the Implementation Strategy objectives and provide quarterly reports to the Hospital’s Board of Directors and health system’s Community Engagement Steering Committee. Additional progress on the Implementation Plan will be reported annually through the hospital’s IRS Form 990 Schedule H filing and other reporting sources associated with strategic partners and community coalitions.
What is Population Health & Health Equity?
Having equitable access to appropriate, convenient and affordable health and dental care. This includes factors such as proximity to care, access to providers, cost, insurance coverage, medical transportation, preventative care, community-based services, responsiveness, care coordination and wellness services within the health care system and community.

Waukesha County 2020 Community Health Needs Assessment Data

- **4%** Currently No Health Care Coverage (18 years or older)
- **16%** Reported Unmet Dental Care in Household
- **13%** Delayed/did not seek Medical Care due to Cost
- **9%** Reported Unmet Medical Care in Household
- **5%** Household Member did not take Prescription Medication due to Cost
- **89%** Individuals who have a Primary Care Physician

Froedtert Menomonee Falls Hospital Strategies

**Healthcare Access for Priority Populations & Navigation of Community Resources**
- Expand assistance and support of the Community Outreach Health Clinic to improve access to healthcare and behavioral care services and navigation of resources for uninsured and underinsured population.
- Expand assistance and support of Community Dental Smiles to improve access to dental services and navigation of resources for uninsured and underinsured population.
- Support the FMFH Family Medicine Residency Program.

**Patient Access to Affordable Transportation**
- Provide subsidized medical transportation rides to underserved populations.
- Develop a process to collect, manage and share transportation community resource.

**Chronic Disease Prevention and Management**
- Increase access to preventative screenings around chronic disease, mammography, colonoscopies and other cancer-related conditions for priority populations.
- Support and promote initiatives through community coalitions and partner agencies through grants and in-kind contributions.

**Health Equity**
- Partner with Human Resources and Diversity & Inclusion to implement programs and policies that address bias and institutional racism.
# Healthcare Access for Priority Populations & Navigation of Community Resources, Health Equity, Patient Access to Affordable Transportation and Chronic Disease Prevention and Management

## CHNA Significant Health Needs

Access to Care (medical and dental), Transportation and Chronic Disease

## Goal

Improve equitable access to primary, comprehensive, quality health and dental care services.

## Objectives

1. Ensure a strong safety net of services that improve access to care among priority populations.
2. Decrease the percent of residents who reported unmet medical and dental care (in household).
3. Provide inclusive, culturally and linguistically competent care to all patients, information to community members and education to staff.
4. Provide and assist eligible patients with affordable transportation options.
5. Increase number of community chronic disease and cancer screenings, access to support services and prevention opportunities.

## Strategies

- Expand assistance and support of the Community Outreach Health Clinic to improve access to healthcare and behavioral care services and navigation of resources for uninsured and underinsured population.
- Expand assistance and support of Community Dental Smiles to improve access to dental services and navigation of resources for uninsured and underinsured population.
- Support the FMFH Family Medicine Residency Program.
- Partner with Human Resources and Diversity & Inclusion to implement programs and policies that address bias and institutional racism.
- Provide subsidized medical transportation rides to underserved populations.
- Develop a process to collect, manage and share transportation community resource.
- Increase access to preventative screenings around chronic disease, mammography, colonoscopies and other cancer-related conditions for priority populations.
- Support and promote initiatives through community coalitions and partner agencies through grants and in-kind contributions.

## Anticipated Impact

- Reduced health disparities.
- Strengthened community capacity and collaboration for shared responsibility to address unmet health needs.
- Increased efforts to address and eradicate racism to create and inclusive environment.
- Increased affordable transportation options.
- Increased innovate opportunities to deliver care.
- Improved ambulatory quality by achieving targets for chronic and preventative care.
- Participation in initiatives through community coalitions and partners.

## Evaluation Metrics

- Number of FMFH referrals to Community Outreach Health Clinic
- Number of patients served at Community Outreach Health Clinic, Community Smiles Dental and through the Family Medicine Residency Program
- Number of rides and cost through the Subsidized Medical Transportation Program
- Readmission, breast cancer screening and A1c poor control by race
- Target hit for diabetes control, hypertension, mammography and colorectal screenings
- Number of lives touched through community coalition initiatives

## FMFH Available Resources

- Community Engagement leadership/staff
- Froedtert & MCW Community Physicians
- Financial support through the Community Outreach Steering Committee Gifts
- Department of Diversity and Inclusion
- Froedtert Menomonee Falls Hospital Foundation Department

## FMFH Collaborative Partners

- Community Outreach Health Clinic- Partner on providing healthcare and behavioral services to underserved populations
- Community Smiles Dental- Partner on providing dental care to underserved populations
- FMFH Family Medicine Residency Program- Partner on providing healthcare services to underserved populations
- Community Coalitions (Collective Impact & Waukesha County CHIPP) - Partner to promote health and wellness in the community
- Waukesha County School Districts- Partner to promote services
- Menomonee Falls and Sussex Food Pantries- Partner to promote services
- Faith-based organizations- Partner to promote services
- United Way of Greater Milwaukee & Waukesha County- Provides funding to address priority health needs
- Area Community Education and Recreation Departments – Promotes community education and wellness classes
- American Cancer Society – Partner to gain resources to implement services
- Bobbie Nick Voss Charitable Funds – Partner to promote and access cancer care services to underserved populations
- Eras Senior Programs Waukesha County – Promotes community education and wellness classes
- Medical College of Wisconsin- Partner on faculty
What is Behavioral Health?

*Mental Health* - Interconnection between mental illness, mental health, mental well-being and the associated stigma. Poor mental health is associated with poor quality of life, higher rates of chronic disease and a shorter lifespan.

*Alcohol & Other Drugs* - Excessive use of substances including alcohol prescription drugs, opioids and other drugs in a manner that is harmful to health and well-being.

**Waukesha County 2020 Community Health Needs Assessment Data**

- **19%** Reporting have a Mental Health Condition
- **32%** Reported Binge Drinking
- **4%** Reported Unmet Mental Health Care in Household
- **7%** Reported using Smokeless Tobacco
- **2%** Reported using Cocaine or Other Street Drugs
- **3%** Considered Suicide in Past Year

**Froedtert Menomonee Falls Hospital Strategies**

**Social Engagement and Support Groups**

- Support behavioral health support groups and programs through community partnerships.
- Support and promote initiatives through community behavioral health coalitions and partner agencies through grants and in-kind contributions.

**Treatment, Screening and Referrals Services**

- Expand behavioral health screenings at Community Outreach Health Clinic and other community partner sites.
- Expand behavioral health services at Community Outreach Health Clinic through the Medically Assisted Treatment (MAT) program and access to psychotropic medication and counseling services.

**Prescription Drug Removal**

- Support Drug Take Back Day through Froedtert Menomonee Falls Hospital.

13
What is Workforce Development (Health Care Careers Exploration)?
Workforce Development includes opportunities to explore health care careers from entry level positions all the way up to physicians or executive leadership. Opportunities to explore health care careers include internships, mentoring, job shadowing, hospital tours, hands-on experiences and other youth specific programs.

Waukesha County 2020 Community Health Needs Assessment Data

- **2.2%** Unemployment Rate (ages 16 or older)
- **$90,548** Median Household Income
- **4.8%** Percent of all Ages in Poverty
- **$60,000** Average yearly distribution for high school scholarships
- **5,000+** Number of students served through workforce development programs per year
- **600+** Number of students served through Community Engagement programs per year

Froedtert Menomonee Falls Hospital Strategies

**Program Development**

- Evaluate current partnership and resources required to meet workforce development needs.
- Create effectiveness criteria of partnerships.
- Develop and implement a coordinated plan in partnership with Froedtert Health Workforce Development, Human Resources and Organizational Development.
- Develop a tracking tool to evaluate student involvement and long-term impact on health care careers.

**Scholarships**

- Provide scholarships to students interested in participating in health care career exploration programs through the FMFH Foundation.

**Mission Critical Careers**

- Promote mission critical careers at Froedtert Health in areas such as nursing, behavioral health, technicians and medical assistants.

What is Infectious Disease?
Infectious diseases are disorders caused by organisms — such as bacteria, viruses, fungi or parasites. Many organisms live in and on our bodies. They’re normally harmless or even helpful. But under certain conditions, some organisms may cause disease.

The following tactics reduce the spread of infections diseases; washing your hands, getting vaccinated, staying home when ill, prepare food safely, practice safe sex, don’t share personal items and travel wisely.

Waukesha County 2020 Community Health Needs Assessment Data
Last Update: 5/14/2021

43,784 Total COVID-19 Confirmed Cases
532 Total COVID-19 Deaths

49.8% Residents who have received at least one vaccine dose
43.2% Residents who have completed the vaccine series

Froedtert Menomonee Falls Hospital Strategies

Outreach and Prevention
• Implement outreach and prevention initiatives through community partners as well as Froedtert Health’s hotline, social media pages, website and other media modes.

Preparedness
• Review and revise a coordinated emergency preparedness plan with the local health department.

Immunizations
• Support immunizations efforts in collaboration with community partners and local health department.

COVID-19 Response

Froedtert & the Medical College of Wisconsin Froedtert Menomonee Falls Hospital recognizes the need to develop alternative ways to implement initiatives to address community health needs during a pandemic. The hospital will collaborate with community partners to identify specific strategies to safely engage the community based on best practices to reduce exposure and risk of infection as well as provide support. Strategies may include:

- Engage healthcare providers to provide pandemic support to vulnerable populations such as hand hygiene, social distancing, and mask education, navigation of health care and testing opportunities, staying safe at work as well as behavioral health and healthy lifestyle support.

- Explore and implement digital platforms for community education and wellness classes.

- Provide behavioral health support to individuals impacted by COVID-19 and higher risk populations.

- Partner with community stakeholders to explore digital platforms to engage the community in healthy behaviors.

- Implement community-based programs following CDC recommendations and guidelines.

- Explore innovative tools to implement community engagement during a pandemic and beyond.
