Froedtert Community Hospital – Oak Creek Implementation Strategy 10

Appendix A: CHNA/Implementation Strategy Advisory Committee 13
Overview
Froedtert Community Hospital, part of the Froedtert & the Medical College of Wisconsin health network, includes locations in Mequon, New Berlin, Oak Creek and Pewaukee. Each licensed, accredited, acute-care facility provides high-quality care close to home in a small-scale hospital setting and features an emergency department, inpatient beds, laboratory, pharmacy and imaging services.

Mission Statement
The Froedtert & the Medical College of Wisconsin health network advances the health of the people of the diverse communities we serve through exceptional care enhanced by innovation and discovery.

Froedtert Community Hospital – Pewaukee Service Area and Demographics
For the purpose of the Community Health Needs Assessment, the community is defined as zip codes within Milwaukee and Racine County, because 71.3% of discharges occur from this geography. All programs, activities and partnerships under the CHNA will be delivered in Milwaukee County. Froedtert Community Hospital – Oak Creek determines its primary service area by completing an annual review and analysis of hospital discharges and market share, according to various determinants.

| Primary Service Area | 53108 | Caledonia | 53172 | South Milwaukee 53110 | Cudahy | 53207 | Milwaukee 53219 | Greendale | 53220 | Milwaukee 53130 | Hales Corners | 53221 | Milwaukee 53132 | Franklin | 53228 | Milwaukee 53154 | Oak Creek | 53235 | Saint Francis |
Froedtert Health Community Engagement

Community Engagement proactively addresses community health needs through innovative programs and partnerships that improve population health and reduce disparities.

Community Engagement Guiding Principles

1. Community Engagement is committed to health equity.
2. Froedtert Health serves all people. As such, Community Engagement builds partnerships and forges collaborations to strengthen the economic vitality and quality of life of all people in the communities we serve.
3. Timeliness is essential for success. Immediate presence of Community Engagement initiatives, digitally and/or experientially, will advance our community connection, community reach, and brand.
4. Community Engagement will leverage Froedtert Health resources to benefit our community including our people, financial, time, marketing, IT, and digital resources.
5. Presence in the community will be achieved in person and digitally, safely, thoughtfully, and with support from internal partners.
6. Community Engagement will actively listen and respond to the needs of our community partners. We will prioritize our efforts aligned with our clinical strengths and mission.
About the Community Health Needs Assessment and Implementation Strategy

**Community Health Needs Assessment (CHNA)**

Froedtert Community Hospital – Oak Creek assesses the health needs of the communities it serves through a comprehensive data collection process from a number of key sources. Data and research included information from community members, public health officials, community leaders/experts, and non-profit organizations representing vulnerable populations in the hospital service area. The following information/data sources were collected and taken into consideration for assessing and addressing community health needs:

- Community Health Survey
- Key Informant Interviews
- Secondary Data Sources
- Internal Hospital Data

**Implementation Strategy/Community Health Improvement Plan**

An implementation strategy (sometimes called a Community Health Improvement Plan) is a written plan of the long-term, systematic effort to address each significant health need identified in the community health needs assessment. Every three years, the CHNA serves as the basis for the creation of the implementation strategy to improve health outcomes and reduce disparities in the Froedtert Community Hospital – Oak Creek service area.

Explanations of the significant health needs identified as priorities for Froedtert Community Hospital – Oak Creek’s 2024-2026 Implementation Strategy include:

- Strategies and actions planned to address each need
- Evaluation metrics
- Anticipated impact of those strategies
- Resources committed to those strategies
- Planned collaborative partners
Implementation Strategy Development Process

1) CHNA: Identify significant health needs
Froedtert Community Hospital – Oak Creek, in collaboration with local health systems and local health departments, assessed the health needs of the communities it serves through a comprehensive data collection process from a number of key sources.

2) Prioritization: Select priority health needs
Froedtert Community Hospital – Oak Creek CHNA/Implementation Strategy Advisory Committee reviewed CHNA data, identified key themes, and prioritized and selected significant health needs.

3) Implementation Strategy Development: Identify actions to address priority health needs
The Community Engagement team, in partnership with key stakeholders, identified evidence-based strategies, partnerships and resources to address significant health needs utilizing a health equity lens.

4) Approval: Authorizing body
The three-year implementation strategy is approved by the Froedtert Health Neighborhood Hospital, LLC Board of Managers. Community Engagement leadership and staff regularly monitor and report progress toward achieving goals and objectives.
Prioritizing Significant Health Needs

Froedtert Community Hospital – Oak Creek, in collaboration with community partners, and JKV Research, LLC, analyzed secondary data of several indicators and gathered community input through online and phone surveys and key stakeholder interviews to identify the needs in the Froedtert Community Hospital – Pewaukee service area. Based on the information from all the CHNA data collection sources, the health needs were identified as:

- Mental Health and Access to Mental Health Services
- Equitable Access to Health Services
- Alcohol and Substance Use
- Safe and Affordable Housing
- Chronic Disease

The CHNA was reviewed by the Froedtert Community Hospital – Oak Creek CHNA/Implementation Strategy Advisory Committee (Appendix A), which consists of members of the Froedtert Community Hospital – Oak Creek Community Advisory Committee, Milwaukee County community partners, the local health departments and hospital and health system leadership and staff. Committee members were selected based on their specific knowledge of health needs and resources in the Froedtert Community Hospital – Oak Creek service area for a collective analysis of the CHNA findings. Under the direction of the Department of Community Engagement leadership team and a trained meeting facilitator, the planning process included four steps in prioritizing Froedtert Community Hospital – Oak Creek’s significant health needs:

- Review current hospital and community health improvement initiatives and strategies.
- Review the Community Health Needs Assessment results for identification and prioritization of community health needs.
- Rank and selected priority areas.
- Brainstorm evidence-based strategies, partnerships and programs to address community health needs.

During a facilitated workout session in January 2023, members of the CHNA/Implementation Strategy Advisory Committee were asked to rate each health need based on the following criteria, to identify the significant health needs:

**Alignment**: the degree to which the health issue aligns with Froedtert Health’s mission and strategic priorities.

**Feasibility**: the degree to which the hospital can address the need through direct programs, clinical strengths and dedicated resources.

**Partnerships**: the degree to which there are current or potential community partners/coalitions.

**Health Equity**: the degree to which disparities exist and can be addressed.

**Measurable**: the degree to which measurable impact can be made to address the issue.

**Upstream**: the degree to which the health issue is upstream from and a root cause of other health issues.
Based on those results, one overarching significant health need was identified as the priority for Froedtert Community Hospital – Oak Creek’s Implementation Strategy for fiscal 2024-2026:

### Mental Health

Mental and physical health are equally important components of overall health. Poor mental health is associated with poor quality of life, higher rates of chronic disease and a shorter lifespan. Froedtert Community Hospital – Oak Creek is committed to working internally to expand mental health services and partnering with community organizations to address this health need through prevention.

### Implementation Strategy Development

After the facilitated workout session in January 2023, suggested strategies were identified utilizing the public health framework for reducing health inequities and understanding how social determinants of health impact health outcomes. The Froedtert & the Medical College of Wisconsin health network’s mission is to advance the health of the people of the diverse communities we serve through exceptional care enhanced by innovation and discovery. Froedtert Community Hospital – Oak Creek has a commitment to being an inclusive and culturally competent organization that provides exceptional care to everyone; therefore, equity, diversity and inclusion are priorities for not only the hospital but also the entire health network. Health equity and social determinants of health were considered during the entire community health needs assessment, the identification of significant health needs and the prioritization of those needs. Furthermore, health equity, disparities and social determinants of health were considered as Froedtert Community Hospital – Oak Creek identified strategies to address those prioritized significant health needs.
**Significant Health Needs Not Addressed**

Froedtert Community Hospital – Oak Creek is unable to address all of the identified community health needs due to limited resources, magnitude/severity of the issue, or the presence of existing resources already in place to address the need.

- **Equitable Access to Health Services:** This need is addressed through the hospital’s care delivery system. The most recent Community Health Needs Assessment identified individuals in Milwaukee County as having high access to a variety of health care services. Access to mental health care is an identified need that will be addressed in the implementation plan strategies.

- **Alcohol and Substance Use:** Addressed through the Healthiest Oak Creek Coalition Substance Use Action Team, a collaboration of the local health department, health networks and community organizations.

- **Safe and Affordable Housing:** Froedtert Community Hospital – Oak Creek is a small-scale community hospital offering emergency and inpatient care, with focus on a specific range of patient needs. Safe and affordable housing is outside the expertise, capacity and scope of services provided. However, as part of the Froedtert & the Medical College of Wisconsin health network, Froedtert Community Hospital – Oak Creek will continue to support housing through the Housing Navigation Program and charitable giving. In addition, Froedtert Community Hospital – Oak Creek is committed to participating with partners in addressing these needs and will continue to look for opportunities to do so.

- **Chronic Diseases:** Addressed through local health department community health improvement plans. Froedtert Community Hospital – Oak Creek is an active member of community coalitions that address this need.

**Implementation Strategy Evaluation**

Froedtert Community Hospital – Oak Creek’s Community Engagement will regularly monitor and report on progress towards the Implementation Strategy objectives and provide quarterly reports to the Froedtert Health Neighborhood Hospital, LLC Board of Managers, Community Advisory Committee and health system’s Community Engagement Steering Committee. Additional progress on the Implementation Plan will be reported annually through the hospital’s IRS Form 990 Schedule H filing and other reporting sources associated with strategic partners and community coalitions.
Mental Health

Why Mental Health?
Mental and physical health are equally important components of overall health. Poor mental health is associated with poor quality of life, higher rates of chronic disease and a shorter lifespan.

Froedtert Community Hospital – Oak Creek 2022 Community Health Needs Assessment Results

The following data is from the Milwaukee County 2022 Community Health Needs Assessment that supports the need to address mental health.

Froedtert Community Hospital – Oak Creek Strategies and Actions to Address Mental Health

Community Collaborations & Charitable Giving

Support mental health initiatives through community collaborations and charitable giving.

a. Actively participate on the Healthiest Oak Creek Coalition.
b. Support mental health efforts through charitable giving and sponsorship.

Health Care Career Exploration

Expose youth to mental health care careers.

a. Expand mental health care career exploration to offer at least two presentations or speakers for middle school or high school students per year.

Educational Trainings

Conduct an educational training for community organizations and health care staff who serve priority populations.

a. Collaborate with community organizations to conduct at least one educational training to increase awareness and skills to address mental health concerns, improve individual self-care and provide community with support, tools and resources.

Referral Applications

Provide access to mental health resources through referral applications.

a. Utilize and promote Impact 211 as a central access point for people in need of mental health support.
b. Explore the expansion of SilverCloud to the community.

- 19.2% adults reported they have been diagnosed with depression.
- 17.3% reported having 14 or more days of poor mental health in the past month (WI: 14.4%)
- 121.8: age-adjusted emergency room visit rate due to mental health per 10,000 population (WI: 69.1).
- 55.6: suicide ER rate per 10,000 population (WI: 47.3)

Priority populations: groups of people with the greatest health disparities and/or risk for poor health. The identified highest need populations include low income, racial/ethnic minorities and elderly.

Froedtert Community Hospital – Oak Creek 2024-2026 Implementation Strategy
**Significant Health Need:** Mental Health

**Program/Initiative:** Coalition Participation, Charitable Giving and Sponsorship, Health Care Career Exploration, Educational Trainings and Referral Applications.

**Goal:** Support mental health and well-being through evidence-based, community-led prevention programs and navigation of support services that are equitable, high-quality, culturally responsive, and linguistically appropriate, specifically for priority populations.
