**About Us**

Froedtert & the Medical College of Wisconsin Froedtert Hospital is eastern Wisconsin's only academic medical center. Less than two percent of the nation's hospitals are academic medical centers, and the state-of-the-art technology and innovations that characterize them mean we offer patients the most comprehensive and appropriate treatment options. In partnership with the Medical College of Wisconsin, our patients are often the first to receive treatment options resulting from the latest research, clinical trials and breakthrough advancements. Fellowships for advanced training enhance the clinical skills of physicians, and donor-supported education for nurses and other health care professionals keep our staff on the leading edge of patient care.
