Pharmacy Research Certificate Overview ........................................................................................................... 49
Welcome!

Congratulations on starting your residency at Froedtert Hospital!

We are delighted to welcome you as the newest members of our Froedtert pharmacy team. Your pharmacy residency is an exciting and unique time. It will be a year devoted to learning and refining clinical skills. Our team is dedicated to providing a variety of high-quality learning experiences during your residency, empowering you to advance your practice to the highest level. Your residency year should be customized to your specific interests to progress your strengths and enhance areas of relative weaknesses.

This will be a year of great professional growth. The pharmacist you are today will be vastly different from the pharmacist that you will be on graduation day. This year will not be easy, but the more you invest in your growth and development the greater your personal and professional fulfillment will be upon completion. At Froedtert, it is our goal to partner with you to guide you on your journey to become a highly trained and competent pharmacist.

Again, congratulations and welcome to the Froedtert Family!

Best regards,

Justin Konkol, PharmD, BCPS, DPLA
Director of Pharmacy – Froedtert Hospital
About Froedtert Health

Froedtert & the Medical College of Wisconsin

The Froedtert & the Medical College of Wisconsin (MCW) regional health network is a partnership between Froedtert Health and the Medical College of Wisconsin supporting a shared mission of patient care, innovation, medical research, and education. Our health network operates eastern Wisconsin's only academic medical center and adult Level I Trauma Center at Froedtert Hospital, an internationally recognized training and research center engaged in thousands of clinical trials and studies. The Froedtert & MCW health network, which includes ten hospital locations, more than 2,100 physicians, and more than 45 health centers and clinics, draws patients from throughout the Midwest and the nation. In our most recent fiscal year, outpatient visits were more than 1.7 million, inpatient admissions to our hospitals exceeded 58,000, and visits to our network physicians totaled 1.17 million.

Froedtert Hospital

Froedtert Hospital is a 711-bed academic medical center and a leading referral resource for advanced medical care. Froedtert Hospital also operates the region’s only adult Level I Trauma Center. The Primary adult teaching affiliate of the Medical College of Wisconsin, Froedtert Hospital is a major training facility for more than 1,000 medical, nursing, and health technical students annually. It is also a respected research facility with more than 2,000 research studies, including clinical trials, every year.

Froedtert Menomonee Falls Hospital

Froedtert Menomonee Falls Hospital, founded in 1964 by the citizens of Menomonee Falls and surrounding communities, is a full-service hospital that specializes in cancer care, heart and vascular care, orthopaedics, women’s health, and advanced surgical procedures. Since 2017, the hospital has been home to inpatient training for Medical College of Wisconsin residents as part of the Froedtert Menomonee Falls Hospital Family Medicine Residency Program. A three-year residency, the program includes 18 medical residents with six residents per class.

Visit froedtert.com for more information about the Froedtert & MCW Health Network.

Froedtert Health and the Medical College of Wisconsin have shared mission, vision, and values

- **Mission:** We advance the health of the people of the diverse communities we serve through exceptional care enhanced by innovation and discovery
- **Vision Statement:** We will be the trusted leader by transforming health care and connecting communities to the best of academic medicine
- **Values:**
  - **Value People.** We treat others with respect, knowing that their feelings, thoughts, and experiences are as important as our own.
  - **Work Together.** We collaborate across the enterprise to put forward our best.
  - **Act Now.** We take action to solve problems and move forward quickly.
  - **Own It.** We take full accountability for our decisions, actions, and results.
  - **Break Through.** We change the future of care with creativity and innovation.
  - **Deliver Excellence.** We set the standard that others aspire to by always asking "What more can we do?"

Pharmacy Department

- **Mission:**
  - The Pharmacy Department at Froedtert & MCW provides:
- High-quality, cost-effective, comprehensive, patient-centered care in an atmosphere of communication and shared respect
- Life-long learning through the education of patients, students, residents, staff, and other health care professionals
- Research and discovery designed to enhance the quality and safety of medication use

**Vision Statement:**
- To improve the health of the community by achieving high-quality patient outcomes through appropriate use of medication therapy

**Vizient Quality and Accountability Rankings**

Vizient, an alliance of academic medical centers in the United States, provides rankings for academic medical center and affiliated hospitals based on quality, safety, and service. In 2022, Froedtert Hospital was recognized as a top performer in the 2022 Bernard A. Birnbaum, MD, Quality Leadership Ranking, achieving a rank of **10** out of 107 Academic Medical Centers. Vizient offers many resources to member hospitals as well as leadership and networking opportunities for pharmacists and pharmacy residents.

Departmental Information

Clinical Pharmacist Scope of Services

Safe and Effective Medication Use
- Pharmacists will take clinical action and make recommendations based on evidence to ensure safe and effective use of medications to meet therapeutic goals

Evaluation of Patient Profile and Medication Orders
- A pharmacist reviews the appropriateness of medication orders for medications to be dispensed in the hospital and at discharge
- Each order will be evaluated for appropriateness prior to the first dose being dispensed (except in emergency situations or in those instances where a medication is administered under the direct supervision of a physician)
- Order verification occurs in a timely manner
  - For priority (STAT) medications, verified within 15 minutes of receiving order
  - For non-urgent medications, verified within 60 minutes of receiving order
- Patient profile review upon order verification and continuously based upon team and patient acuity
  - Known drug allergies
  - Review of medication list for:
    - Drug-drug interactions
    - Drug-disease interactions
    - Duplicate or missing medications
    - Appropriate lab orders
    - Cost effective therapy
  - Assessment of therapeutic appropriateness
    - Indication
    - Route and method of administration
    - Anticipated toxicity or adverse effects
- Assessment of renal dosing upon order verification and upon profile review
- Therapeutic drug monitoring and ordering of associated laboratory procedures as indicated
- Daily antibiotic stewardship review to ensure appropriate indication and duration of therapy for each antibiotic ordered and to enforce current antimicrobial formulary restrictions and practice guidelines
- Ensure appropriate compliance for Risk Evaluation and Mitigation Strategy medications
- Support distribution needs to patient care area by coordinating with central pharmacy staff
- Direct pharmacy technicians and interns in their daily work through observing their performance, giving timely feedback, answering questions, providing guidance, and checking the accuracy of their work

Pharmacist Medication Dosing Services
- Pharmacists are responsible for the following pharmacy consult services:
  - Vancomycin and aminoglycosides
  - Antifungal medications
  - Direct thrombin inhibitors
  - Warfarin
  - Total parenteral nutrition
  - QT prolongation

Medication Histories and Reconciliation
- Pharmacists are accountable for the following:
  - Obtain medication history within 24 hours of patient admission
  - Complete admission medication reconciliation within 24 hours of patient admission
Complete transfer medication reconciliation with each level of service transfer and with transfer out of the operating room

**Discharge Reconciliation and Coordination**
- Pharmacists are held accountable for the following:
  - Complete discharge medication reconciliation prior to patient discharge
  - Complete discharge medication counseling to patient prior to discharge
  - Facilitate access to outpatient prescriptions prior to discharge as appropriate

**Drug Information and Patient Education**
- A primary focus on a daily basis, pharmacists:
  - Provide consultations in a timely and accurate manner to support other health professionals in medication therapy selection and management
  - Provide disease state and medication specific education during hospitalization

**Multidisciplinary Team Involvement**
- In order to better integrate into the medical team, pharmacists:
  - Attend daily care coordination rounds to facilitate discharge medication needs
  - Support and augment patient care rounds
  - Document notes and care plans in the electronic medical record (eMR) as appropriate

**Communication between Pharmacists**
- To ensure proper care of patients through shift changes and transfers, pharmacists are to:
  - Proactively identify hand-off needs prior to the end of shifts and coordinate key hand-offs in the eMR sign-out notes
  - Contact receiving pharmacy team members when appropriate regarding patient transfers from unit to unit to ensure continuity of care

**Precepting and Teaching**
- As part of an academic medical center, pharmacist duties include the following:
  - Daily teaching and incorporation of evidence-based learning into resident and student rotations
  - Evaluation and feedback for residents and students on a regular basis
  - Timely coordination of rotation activities
  - Effective use of residents, students, and interns as extenders of pharmacy care

**Formulary Management**
- Pharmacists assess the following during the course of their daily duties:
  - Approved use and indication of formulary and restricted agents
  - Compliance and support of Froedtert Hospital evidence-based guidelines and medication use policies
  - Approved therapeutic interchanges for medications at order verification
  - Assessment and prospective planning of switching patients from IV to PO regimens when able
  - Completion of non-formulary request process
  - Supply documentation to health care providers regarding medication use and patient outcomes from medication therapy
  - Participate and provide input in the development and application of policies, procedures, clinical care plans, guidelines, order sets, interdisciplinary standards of care, and protocols involving medication use
  - Verify the validity of off-label medication use with primary, secondary, and tertiary medication references

Back to [Table of Contents](#)
Emergency Management

- Pharmacists support and participate in emergency management in the following ways:
  - ICU or Emergency Department pharmacists respond to all Code 4 emergencies and airway responses
  - Pharmacists will respond to all rapid responses in their assigned area
  - Timely response to emergency or disaster management process
  - Support rapid sequence intubation and conscious sedation

Quality and Process Improvement

- Pharmacists are actively engaged in quality and process improvement:
  - Represent the Pharmacy Department on committees, task forces, workgroups, and unit-based councils that make decisions concerning medication use or engage in improvement initiatives which support patient-focused care
  - Lead and support medication use related to achieving outcomes around quality measures (national patient safety goals, core measures, value-based purchasing)
  - Active and timely participation and support of multidisciplinary process improvement
  - Actively participate in business process committees throughout the hospital

Medication Distribution and Control

- Pharmacy staff will:
  - Utilize inventory management software to purchase pharmaceuticals
  - Purchase pharmaceuticals at the lowest possible price and maintain an inventory sufficient to meet the needs of our patients
  - Obtain pharmaceuticals from primary wholesalers or direct from the manufacturers
  - Procure, store, and distribute all medications used in the inpatient and ambulatory settings throughout Froedtert Hospital
  - Prepare and label drug formulations, dosage forms, strengths, and packaging not commercially available in accordance with applicable practice standards and regulations.
  - Ensure adequate quality assurance standards for these practices exist
  - Prepare and label compounded sterile products in accordance with practice standards
  - Prepare and label compounded and repackaged non-sterile products in accordance with practice standards
  - Coordinate all drug recall notices and follow procedures to remove recalled products for return to the manufacturer and patient follow up if necessary
  - Routinely monitor inventories of pharmaceuticals to ensure proper storage conditions and remove expired medications from stock
  - Maintain accountability for the distribution of controlled substances and monitor systems to detect diversion
  - Identify processes for safe handling and disposal of hazardous drugs
  - Identify practices to ensure adequate supply of emergency medications needed in the event of an incident resulting in mass casualties

Clinical Cancer Center Services

- Pharmacy staff will:
  - Provide direct comprehensive pharmaceutical care in the Cancer Center
  - Coordinate medication use in the oncology patient population
  - Perform duties as outlined above in Clinical Pharmacist Practice Service and Medication Distribution and Control as applicable
  - Develop, review, and maintain protocols and regimens within the oncology electronic medical record system
  - In collaboration with members of the Department of Hematology/Oncology, Pharmacists verify medication orders and perform a dual verification for all chemotherapy orders
• Prepare and label compounded hazardous products for the entire campus in accordance with practice standards
• Participate in clinical research and Investigational Drug Services
• Participate as a member of multi-disciplinary and pharmacy committees in the Clinical Cancer Center
• Work with inpatient Heme/Onc and retail pharmacy staff to ensure continuity of care
• Pharmacists will:
  o Assist in the education of patients receiving chemotherapy and adjuvant medications
  o Be responsible for the development, maintenance, and execution of Collaborative Practice Agreements with physicians

Froedtert Health Pharmacy Solutions (FHPS)

FHPS focuses on outpatient pharmacy services including retail, specialty, and home infusion and includes a full-service PBM.

Froedtert Pharmacy Retail Services

• Froedtert Pharmacies provide services Monday through Friday with certain locations offering Saturday hours and the 92nd Street location operating 365 days a year.
• There are 12 retail pharmacy locations and 1 remote dispensing site with plans to expand locations in FY23.
• The three discharge pharmacies located within FMLH, FMFH, and FWBH are accredited by Community Health Accreditation Partner (CHAP), allowing Medicare Part B billing for approved DME products with additional locations being approved for billing Medicare Part B medications.
• Pharmacy staff working in the Froedtert Pharmacy Retail Stores are responsible for:
  o Prescription data entry, claims adjudication, medication profile review, assessment for clinical appropriateness, identification of interactions or possible adverse events, collaborating with interdisciplinary team members, product dispensing, final product verification, cash handling and point-of-sale transactions, counseling patients on prescription and over-the-counter medications
  o Fulfill duties outlined in the Clinical Pharmacist Practice Service and Medication Distribution and Control as applicable
  o Support patients through challenges in receiving their medications by utilizing available resources, such as patient assistance programs, prior authorizations, Froedtert Rx Savings Plan, approved interchange policies, and programs such as the Drug Repository Program, Diabetic Smart Start and Discount Programs, etc
  o Per Wisconsin State Law, pharmacists are required to counsel on new prescriptions when therapy changes are made, when requested by the patient or patient agent, or when the pharmacist deems necessary
  o Additional services available include Medication Therapy Management, Immunizations, Quality Interventions, Enhanced Refill Processing, and the Froedtert Rx App to assist patients in managing their medications

Froedtert Pharmacy Home Delivery & Specialty Services

Home Delivery
• Froedtert Pharmacy offers Home Delivery to seven states for no additional charge to patients.
• Before sending out any medications, the pharmacy staff proactively call patients to confirm their order, preventing missed doses and minimizing unwanted medication from being sent.

Specialty
• The Froedtert Pharmacy Specialty team manages high cost, often chronic medications used by our patients in and outside of our hospitals or clinics. Our Specialty Pharmacy touches a variety of areas within our health system and is URAC accredited. Each month a pharmacist reviews the patient’s medical record to ensure their medications are appropriate and accurate.
• The Medication Access Team (MAT) is embedded with the specialty pharmacy service line and performs the following duties:
  o Acquire prior authorizations for specialty medications infused, administered, or dispensed at any of the Froedtert and the Medical College of Wisconsin campuses, health centers, or Froedtert Pharmacies
  o Obtain medication and/or financial assistance for patients who are uninsured or unable to afford their specialty medication
  o Collaborate with social work, case management, and financial counselors to ensure patient access to affordable medications
  o Review of pending Medicare write-offs to correct potential billing errors and maximize reimbursement

*Froedtert Pharmacy Home Infusion Services*
• Provides a safe and effective option for patients to receive therapy via intravenous or other non-oral routes from the comfort of their own home or infusion suite
• The Home Infusion team includes registered nurses and pharmacists, and coverage spans the state of Wisconsin
• Home Infusion is accredited by the Joint Commission for home care services and is a certified Medicare provider for DME

*Ambulatory Pharmacy Services*
• Pharmacists are integrated into both primary care and specialty clinics across the Froedtert Health Enterprise
• Primary care pharmacists cover over 30 primary care clinics and specialty clinic pharmacists support over 10 specialty areas
• The ambulatory pharmacy department also comprises the Anticoagulation Clinics (a multidisciplinary team of pharmacists, nurses, and pharmacy technicians) and the pharmacist-led Anemia Clinic
• Ambulatory clinic pharmacists provide care to patients with a variety of chronic conditions through the use of Collaborative Practice Agreements with physicians
• Ambulatory pharmacy care is delivered to patients through office and virtual visits as well as telephone encounters
• In addition to direct patient referrals, ambulatory pharmacists work with nurses and medical assistants on enterprise-wide population management initiatives focused on a variety of disease states such as diabetes, hypertension, heart failure, COPD/asthma, and HIV PrEP
• Ambulatory pharmacists at Froedtert work closely with the pharmacy technician prior authorization team, as well as pharmacists within the Froedtert Health retail and specialty pharmacies to ensure patient access to medications
• Ambulatory clinics with pharmacist services include: Anemia, Anticoagulation, Behavioral Health, Cardiology, Dermatology, Endocrinology, Geriatrics, GI/Hepatology, Infectious Diseases, Infusion Clinic, Metabolic Syndromes, Neurology, Oncology, Primary Care, Pulmonary Clinic, Rheumatology, and Solid Organ Transplant

*Investigational Drug Services*
• Pharmacy staff are responsible for the proper procurement, storage, labeling, dispensing, record keeping, and disposal of investigational drugs for all clinical research at Froedtert Hospital and clinics on the Froedtert Hospital campus
• Investigational drugs will only be dispensed to patients enrolled in an IRB-approved research study and only after informed consent has been completed and verified by a pharmacist
• Pharmacy staff are responsible for proper storage, labeling, dispensing, record keeping, and disposal of emergency use medications, medications available as a part of an expanded access program, and compassionate use medications
Pharmacy staff will work with the clinical team as needed to facilitate authorization through the IRB, correspondence with the supplying company, and procurement of drug as needed.

Investigational Drug Service team members are responsible for preparing protocol summaries to facilitate after-hours dispensing of medications for clinical trials where necessary.

Investigational Drug Service team members are routinely available Monday through Friday 7:00 am to 5:30 pm. An Investigational Drug Service team member is available during the evening and weekends if needed for urgent situations.

Center for Medication Utilization

The Center for Medication Utilization (CMU) team promotes and ensures the safe, effective and fiscally responsible use of medications across the Froedtert & MCW health network. The team provides structure and support for the System Pharmacy and Therapeutics Committee and is integral to many critical medication management efforts across the health network, including:

- Medication utilization management for medication spending and reimbursement across the health network
- Effective medication shortage management to ensure patients and providers have access to the medications they need
- Formulary management with support for informatics and policy integration
- Vigilance of safe medication use in accordance with regulatory requirements and best practices
- Facilitation and oversight of medication guidelines, protocols, collaborative practice agreements, and clinical pathways
- Development and maintenance of infusion pump libraries, user-friendly drug information resources, and communication tools
- Continual monitoring of medication-use patterns and value-based care initiatives

Pharmacy Informatics/Epic Willow Teams

The Pharmacy Informatics and Epic Willow teams manage, implement, and design automation and technology including the electronic health record, distributive technologies, and ancillary programs across the Froedtert and the Medical College enterprise.

- Primarily responsible for the Epic Willow Inpatient application, Epic Willow Ambulatory application, medication related ancillary applications, medication related reporting, and training of pharmacy staff
- Pharmacy Informatics and Epic Willow team members are routinely available Monday through Friday 8:00 am to 4:00 pm. A Pharmacy Informatics and Epic Willow team member is available during the evening and weekends if needed for urgent situations.

Residency Program Policies and HR Information

*Residency Program - Resident Licensure*
*Residency Program – Scheduled, Unscheduled, and Extended Absences from Residency*
*Residency Program – Residency Program Completion*
*Residency Program – Resident Performance Improvement Planning and Corrective Action*
*Residency Program – Duty Hours*
Residency Program – Pharmacy Resident Licensure

Name: Residency Program - Pharmacy Resident Licensure
Last Review Date: 12/30/2021
Next Review Date: 12/30/2024
Policy Number: 40310-004
Origination Date: 01/02/2013

Purpose: To define requirements related to licensure for pharmacy residents

Policy: Consequences of failure to obtain licensure within the expected timeframe will be determined by the Residency Program Director, Residency Coordinator, Director of Pharmacy and a representative from Human Resources.

Procedure:

- The pharmacy resident should submit appropriate documentation to the Wisconsin State Board of Pharmacy as soon as possible after learning they have matched with a Froedtert residency program.
- The resident must be fully licensed as a pharmacist (successfully pass the NAPLEX and MPJE exam and have an active pharmacist license) within 90 days of the beginning of the residency.
- If the resident is not licensed within 90 days of the beginning of the residency program, the following describes the outcome for the resident.
  - If the resident has taken, but not successfully passed either the NABPLEX or MPJE exam, or both, the Residency Advisory Committee (RAC) may consider allowing a 30 day extension, which will allow the resident to complete two-thirds of the residency as a licensed pharmacist.
    - If approved, this extension will be noted in the RAC minutes.
    - If this extension is not approved, the resident will be dismissed.
  - If the resident has not taken both the NAPLEX and MPJE exams within 90 days of the beginning of the program, the resident will be dismissed from the program.

- If a 30 day extension has been provided and the resident is still not licensed as a pharmacist, the following describes the outcome for the resident.
  - If the resident has signed up to retake the test(s) but not successfully completed, the RAC may consider allowing an additional extension, not to exceed 90 days (i.e. 210 days after the beginning of the residency).
    - If approved, this extension will be noted in the RAC minutes, and the residency will be suspended until such time as the resident is licensed as a pharmacist. Once licensed, the residency will be extended by the amount of time as the extension to ensure that the resident completes 12 months of training and completes two-thirds of the residency as a licensed pharmacist. If the resident is not licensed as a pharmacist by the end of this extension, the resident will be dismissed.
    - If this extension is not approved, the resident will be dismissed.

- Factors taken into consideration will include:
  - Reason(s) for the delay (within or beyond the resident’s control)
  - Number of attempts to pass licensure exams
  - Overall competency, ability and performance of the resident

Reference Details:
Approved by Residency Steering Committee
Issuing Authority:
FMLH Pharmacy Operations Committee
Residency Program - Scheduled, Unscheduled, and Extended Absences from Residency

Last Review: March 26, 2021
Next Review: March 26, 2024
Description: Residency program completion, extended absences, leave, LOA, PTO, sick time, holiday
Policy number: 40310-005
Origination date: 9/13/2005

Purpose: To describe the requirements for residency completion and extended absences.

Policy:
1. Froedtert & the Medical College of Wisconsin PGY1 and PGY2 pharmacy residency programs are designed as 52-week programs of full time work. Combined PGY1/PGY2 pharmacy residency programs are designed as two consecutive 52-week programs. The non-traditional residency program allows the resident to meet the residency requirements over an extended period of time.
2. Residents may take up to a total of 21 days of time off (paid or unpaid) per year for vacation, interviews, sick time, and holidays. Residents taking time off in excess of 21 days or 168 hours per year will need to make up those days in order to complete their residency program and earn a residency certificate.
3. The residency program will be extended up to 12 weeks (with pay) beyond the original expected completion date to facilitate completion of all program requirements for residents with an approved Leave of Absence during the residency year. The length of the extension will align with the duration of the approved leave.
4. In the event of extended or multiple intermittent absences beyond an approved Leave of Absence, the option to extend the residency will be at the discretion of the Residency Program Director and manager. The residency program may be extended up to 12 weeks beyond the original completion date.
5. Absences of greater magnitude or frequency are considered too substantial of an interruption and will result in program dismissal without a residency certificate.

Procedure:
1. Residents will work with their program director, manager, and scheduler to request time off.
2. Residents may not schedule time off from staffing shifts. Unscheduled time off from a staffing shift may result in the make-up of that shift at a later date.
3. Approval and handling of absences, including paid time off (scheduled and unscheduled) will be done in accordance with Froedtert Health policies specific to the situation.
4. If an extension to the residency is warranted, the duration of the extension will be determined by the amount of time missed.

Title: Residency Program: Residency Program Completion

Effective Date: June, 2021
Revised Date: Pending

Entities Impacted: FMFH (X) FMLH (X) FMCWCP ( ) FWBH ( )

Policy Number: Pending

PURPOSE:
Describe requirements for residency program completion

DEFINITIONS: [Path to file]

POLICY:
Residents must meet all completion requirements prior to being awarded a residency certificate.

Each residency program maintains a list of completion requirements specific to that program.

Completion requirements are included in the residency manual and provided to residency candidates at the time of their interview with the program.

Progress on achieving completion requirements will be monitored by the Residency Program Director or designee and documented as a part of the resident’s development plan at least quarterly.

Residents are required to complete all program specific completion requirements by the end of the residency program.

For residency programs with a Patient Care Competency Area (R1); all objectives within that competency area must be Achieved for Residency (ACHR) by the end of the residency program.

At least 70% of the other required objectives must be Achieved for Residency (ACHR) and Satisfactory Progress (SP) must be made on all remaining required objectives by the end of the residency program.

Residency Program – Resident Performance Improvement Planning and Corrective Action

Name: Residency Program - Resident Performance Improvement Planning and Corrective Action

Last Review Date: 06/26/2020

Next Review Date: 06/26/2023

Policy Number: 40310-002

Origination Date: 08/10/2005

Purpose: To provide guidance on handling situations in which pharmacy residents are not meeting or completing residency program requirements as expected.

Definitions:
- **Residency Program Director (RPD)** – The pharmacist on record with the American Society of Health System Pharmacists (ASHP) who is responsible for the leadership of a pharmacy residency program. This pharmacist may or may not be a formal leader at Froedtert Health.
- **Leader** – The pharmacy resident’s direct supervisor at Froedtert Health.
- **Mentor** – A pharmacist assigned by the residency program director to assist with resident development during the residency year. The mentor is a Froedtert Health staff member who is typically not in a leadership role.
- **Advisor** – A pharmacist assigned by the residency program director to assist with resident development and career planning during the residency year. The advisor is a Froedtert Health staff member who is typically in a leadership role.
- **Preceptor** – A pharmacist who oversees a resident learner during a specific learning experience.

Policy:

A. In order to earn a residency certificate at Froedtert & the Medical College of Wisconsin, residents must meet criteria outlined in policy AD25.000, Residency Program Completion and Extended Absences.

B. If at any point during the residency program, it is determined that a resident is consistently &/or substantially not fulfilling the expectations of the residency, a formal plan for improvement will be initiated by the Residency Program Director (RPD) and the resident’s leader. The resident’s mentor and/or advisor may be included depending on the circumstances.

C. Coaching will be used to correct deficiencies or behaviors initially unless:
   1. The resident is having difficulty performing tasks required to independently staff in a pharmacist role.
   2. The behavior or action would result in corrective action or dismissal for a staff member per Froedtert policies and procedures.
      i. As a Froedtert Hospital staff member, residents are expected to comply with all Froedtert Health Rules of Conduct and other Human Resource policies as outlined separately.
      ii. Non-compliance with these policies will be handled by the resident’s leader and the department’s Human Resource liaison.
3. A pattern of behavior has been established and has not improved with coaching.

Procedure: **Coaching**

A. When a preceptor or other member of the pharmacy department identifies that the resident is not meeting expectations, this information shall be communicated directly to the resident, the resident’s RPD and the resident’s direct leader.

1. In addition to verbal feedback, the preceptor should provide written feedback to the resident in Pharmacademic with clear direction for the improvements that are needed. "Needs Improvement" should be used to document deficiencies. The RPD and/or leader will investigate by following up with the resident’s preceptor as well as other preceptors and pharmacists who have worked with the resident.

2. The RPD and leader will schedule a meeting with the resident to initiate a coaching conversation regarding identified problem areas and issues. A list of areas for improvement and goals to be achieved will be defined at this meeting. The rotation schedule and/or learning experiences may be adjusted in order to provide the resident an opportunity to show improvement. The resident’s mentor and or advisor may also be included at the discretion of the RPD and leader.

3. The RPD and leader will write a formal plan with actionable goals that has a distinct timeline using the attached template. The resident and leader will sign off on this document. The leader will add this plan to the resident’s personnel file.

4. The RPD and leader will schedule follow-up meetings with the resident at two and four weeks to discuss progress with the plan. Meetings may be scheduled sooner or more frequently if appropriate. Feedback will also be gathered from the resident’s preceptors. If sufficient progress has been made, this will be documented on the plan and updated in the file. Based on the nature of the areas for improvement, the RPD and leader will determine if additional follow-up is needed.

**Formal Performance Improvement Plan**

B. At the end of the four-week time period, if it is determined that the resident has not made sufficient progress in improving performance, the RPD and leader may initiate a formal Performance Improvement Plan with the assistance of their human resources liaison. Action may start here for situations listed under section C above.

1. The resident’s leader will be responsible for discussing the situation with the department’s HR liaison and their Director.

2. The leader and RPD will meet with the resident to discuss all areas in which it is believed the resident is still not meeting expectations. An official Performance Improvement Plan will be initiated based on the areas for improvement identified and timelines discussed. The leader and the
resident will sign off on this document. This document and sign off will go into the resident’s file, and will also reflect the understanding that if progress is not made during the established time frame, there is a possibility of dismissal from the program that would exclude the resident from earning a residency certificate.

3. It is the responsibility of the resident to achieve the documented goals. The leader and/or RPD will schedule follow-up meetings with the resident based on the timelines established in the performance improvement plan. The resident’s mentor and/or advisor may be included in these meetings at the discretion of the resident’s RPD and leader.

4. At the end of this time frame, if it is determined that the resident has not made progress toward completion of the goals, the RPD and the resident’s direct leader shall discuss dismissal of the resident from the program and/or termination of employment.

5. The director of pharmacy, along with the resident’s leader, and the RPD will make the final decision regarding dismissal/termination in consultation with the department’s Human Resource liaison.

Residency Program – Duty Hours

| Title: Residency Program – Duty Hours | | |
| Last Review Date: 12/28/2022 | Next Review Date: 12/28/2025 |
| Policy Number: 40310-006 | Origination Date: |
| Category: Residency | |
| Policy Owner: Kristin Hanson, Anne Zechlinski | |
| Authorizing Group: Pharmacy Residency Steering Committee & Pharmacy Policy Committee | |
| Supercedes: | |
| Synergy: FMLH and FMFH | |
| Description: | |

**PURPOSE**
To ensure pharmacy residents are “fit for duty” by outlining a process for monitoring and tracking duty hours as a way to identify if and when interventions are needed to promote resident well-being and resilience and patient safety.

**DEFINITIONS:**
**Duty Hours** – Duty hours are defined as all scheduled clinical and academic activities related to the pharmacy residency program. Duty hours include:
- Training and orientation, time to complete required certifications (ex. ACLS, BLS)
- Patient care activities (rotation & staffing)
- Administrative responsibilities
- Committee appointments and assignments
- Scheduled conferences (Milwaukee Citywide, Midyear, GLPRC, etc.)
- Projects & tasks assigned by preceptors, program director or coordinator required to meet the goals & objects of the program
- Work to complete year-long residency project
- Assignments for longitudinal rotations
- Select On-call responsibilities (see section D, below)

Duty hours do not include:
- Reading, studying & academic preparation time
- Travel time to & from off-site rotations
- Travel time to & from conferences
- Time to complete education, training or certification not required as part of residency program
- Resident & department social activities

**Scheduled duty periods** – Assigned duties, regardless of setting, that are required to meet the educational goals and objectives of the residency program. These duty periods are usually assigned by the residency program director or preceptor and may encompass hours which may be within the normal work day, beyond the normal work day, or a combination of both.

**Moonlighting** – Voluntary, compensated, pharmacy-related work performed outside the organization (external), or within the organization where the resident is training (internal), or at any of its related participating sites. These are compensated hours beyond the resident’s salary and are not part of the scheduled duty periods of the residency program.

**Bonus Shift** – Terminology used at Froedtert & the Medical College of Wisconsin for “moonlighting shifts” that are periodically available to residents for additional compensation.

**Continuous Duty** – Assigned duty periods without breaks for strategic napping or resting to reduce fatigue or sleep deprivation.

**Days Free** – Calendar days with no scheduled residency-related activities. This includes weekends when not scheduled to staff.

**POLICY:**

Back to [Table of Contents]
A. All Froedtert & the Medical College of Wisconsin pharmacy residency training programs abide by the requirements set forth in the American Society of Health System Pharmacists (ASHP) Pharmacy Specific Duty Hours and Accreditation Standards. https://www.ashp.org/-/media/assets/professional-development/residencies/docs/duty-hour-requirements.pdf
   - Residents will review the ASHP Duty Hours document upon initiation of the residency training program.
   - During orientation, the RPD will review requirements related to duty hours with residents. Furthermore, the RPD will highlight and emphasize resident accountability and responsibility as it relates to patient safety and the importance of being “fit for duty.”

B. Maximum duty hours of work per week and duty-free times:
   - Duty hours must be limited to 80 hours per week, averaged over a four-week period, inclusive of all in-house activities and all moonlighting/bonus shifts.
   - Mandatory time free of duty: residents must have a minimum of one day in seven days free of duty (when averaged over four weeks).
   - The scheduling of resident staffing shifts will allow duty hours rules to be met.

C. Moonlighting/Bonus Shifts
   - Any moonlighting/bonus shifts worked at Froedtert Health or externally are included within duty hours.
   - Once trained and licensed, residents may pick up bonus shifts at Froedtert Health as long as:
     i. The resident obtains permission from RPD prior to picking up their first shift.
     ii. The shifts do not interfere with residency program requirements.
     iii. The resident is meeting or exceeding residency program requirements.
     iv. The shift will not cause the resident to exceed duty hours.
   - If a pharmacist believes the resident is showing signs of fatigue (excessive yawning, sedation, etc), the resident should be relieved of their duty. The pharmacist will notify the program director and the resident will be prohibited from moonlighting/bonus shifts for at least 4 weeks.
   - Moonlighting/bonus shifts will be prohibited if it appears to be interfering with the resident’s judgement or ability to achieve educational goals.
   - External moonlighting is discouraged, however, if a resident chooses to moonlight, hours must be disclosed with duty hours. If it is identified that moonlighting is interfering with fitness for duty, residents will be required to end moonlighting responsibilities.

D. At-Home Call Programs
   - Residency programs with call programs must have a documented structure that includes:
     i. Level of supervision a resident will be provided based on activities expected to perform, level of residency training and timing during the year.
     ii. Identification of a backup system if the resident needs assistance.
     iii. Method to evaluate the impact of the call program to ensure there is not a negative effect on patient care or resident learning due to sleep deprivation or fatigue.
     iv. A plan for how to proceed if residents’ participation in call program affects performance during duty hours.
   - At-home call programs must satisfy the requirement for one-day-seven free of duty, when averaged over four weeks. No at-home call can occur on the day free of duty.
   - At home call hours are considered duty hours if:
     i. The resident is called-in to work or to fill a shift. The hours spent working will be included in duty hours. This may include a shift that can be worked from home.
ii. The time spent by the resident on on-call related work activities during their assigned on-call hours count toward duty hours (i.e. taking calls, reviewing electronic health record, arranging sick call coverage, etc).

E. Duty Hours Tracking and Monitoring
   - Residents are expected to self-monitor their duty hours and will complete a monthly attestation in Pharmacademic.
   - RPDs will be alerted if a resident discloses work in excess of duty hours limits. The RPD is responsible for discussing the circumstances for duty hour excursion with the resident in order to identify strategies to comply with duty hours rules while meeting program requirements.
   - Potential strategies include restricting bonus shifts/moonlighting, allowing time away, adjustment of deadlines for longitudinal work, or rotation/staffing schedule adjustments.

F. Promotion of well-being and resilience
   - During orientation, residents will be provided with education on well-being, resilience, burnout and strategies to mitigate/reduce risk. Organizational resources (such as peer support groups and counseling services) available to residents will be also be discussed.
   - Annually, a preceptor development topic will be dedicated to discussing these topics as well.
   - Individual resident wellness strategies will be included as part the each resident’s development plan and will be re-assessed at least quarterly at each resident’s Residency Advisory Committee Meeting.
### Standardized Definitions of Resident Performance Evaluations for use within PharmAcademic

#### Formal Evaluation
Standard definitions of progress toward achieving goals and objectives will allow for consistent interpretation and help provide consistent assessment and subsequent feedback for all Froedtert & the Medical College of Wisconsin pharmacy residents in all residency programs. The following definitions will be used for needs improvement (NI), satisfactory progress (SP), achieved (ACH), and achieved for residency (ACHR) will be used in all PharmAcademic evaluations.

#### NI = Needs Improvement
**Definition:** Resident is not meeting expectations. The resident is performing below the level that would be expected of a resident at this point in their training program as evidenced by meeting 1 or more of the following characteristics:
- Requires direct and repeated supervision, guidance, intervention, or prompting
- Make questionable, unsafe, or non-evidence-based decisions
- Fails to complete tasks in a time appropriate manner
- Fails to incorporate or seek out feedback
- Acts in an unprofessional manner

**Preceptor Action:** The preceptor is required to document criteria-based, specific comments within PharmAcademic, citing specific example(s) why NI was assigned, and providing direction on how the resident may improve their performance. When applicable, the preceptor should contact the RPD, RPC, and mentor early in the learning experience if resident performance concerns are noted. The resident’s progress should be communicated to the preceptor team in a timely fashion, using whatever mechanism that residency program uses for preceptor communication (i.e. Residency Advisory Committee, etc.). The preceptor should determine when to reevaluate the goal/objective that for which a “NI” was assigned, ideally in about 4 months, and may necessitate a change in resident schedule.

#### SP = Satisfactory Progress
**Definition:** Resident is meeting expectations. The resident is performing at the level that would be expected of a resident at this point in their training program as evidenced by meeting the following characteristics:
- Requires infrequent supervision, guidance, intervention, or prompting
- Makes appropriate, safe, or evidence-based decisions with limited prompting or intervention from the preceptor
- Completes tasks in a time appropriate manner with limited prompting and guidance
- Incorporates feedback from preceptors with minimal prompting
- Acts in a professional manner

**Preceptor Action:** The preceptor is required to document criteria-based, qualitative written comments that are specific and actionable, and acknowledge the resident’s skill progression within PharmAcademic.

#### ACH = Achieved
**Definition:** Resident is consistently meeting expectations. Resident is independently performing at or above the level of performance expected at the conclusion of the residency program. Resident displays all of the following characteristics:
- Appropriately seeks guidance when needed
- Consistently makes appropriate, safe, or evidence-based decisions on an independent basis
- Independently and competently completes assigned tasks
- Consistently demonstrates ownership of actions and consequences
- Accurately reflects on performance and can create a sound plan for improvement
- Acts in a professional manner

**Preceptor Action:** The preceptor must document criteria-based, specific comment(s) and example(s) within PharmAcademic to justify ACH.

#### ACHR = Achieved for Residency

---

Back to [Table of Contents](#)
**Definition:** Resident has demonstrated a **sustained performance of independently meeting or exceeding** expectations for the end of the year.

*Note: Once a goal is marked as ACHR, further evaluation in future learning experiences is optional. If a resident regresses in performance after a goal is marked as ACHR, it may be unchecked by the RPD or RPC.*

**Who can mark as ACHR?**

Documentation (within PharmAcademic) of a resident’s achievement of a goal/objective for the residency program will be the responsibility of the RPD, RPC, and mentor. This can be done at any point throughout the year, ideally in coordination with a formalized process for resident evaluation such as monthly Residency Advisory Committee or quarterly evaluations / customized training plans.
Benefits

- PGY1 Stipend: $49,920
- PGY2 Stipend: $53,040
- PGY1 Non-traditional Stipend (annual): $81,120
- Residents as full-time Froedtert employees are eligible for health, prescription drug, vision, dental, and life insurance, as well as disability coverage. Medical rate assistance program available.
- Other benefits include paid time off (PTO), employee assistance resources, discounted health club membership, and free on-site parking.
- Benefits information is located here: http://intranet.froedtert.com/?id=17947&sid=5

Resident Attendance Expectations

- Residents are expected to work at least 8 hours/day Monday-Friday
- Residents are expected to notify their program director and manager in advance (as soon as possible) in the event that they will not be on-site on a weekday (either due to PTO or work-from-home)
  - Residents must alert their preceptor and RPD in advance of planned work-from-home outside of the local area (i.e. > 60 miles from campus)
- The RPD and manager should be notified for the following circumstances:
  - Resident is taking scheduled PTO (vacation, interview, etc.) or bereavement time
  - Resident is off during the week with the intent of making up the day on a weekend
  - Resident has an unscheduled absence (illness, emergency, etc.)

Paid Time Off

- Residents are allotted 21 vacation days (paid time off – PTO). Residents are responsible for setting aside PTO for interviews and illness.
- Requests for time off must not fall on staffing days. If time off is needed during a staffing day, it is the resident’s responsibility to identify coverage and communicate the switch.
- It is the responsibility of the resident to notify their RPD and rotation preceptor of days off.
- Residents are not allowed to take PTO during the last 4 weeks of employment. Exceptions may be considered, but must be discussed and approved by manager in advance.
- Requests for ≤ 2 days off must be made at the beginning of the rotation in which they fall.
- Requests for > 2 consecutive days off should be made as soon as possible or at least one month in advance to allow for any necessary rotation schedule adjustments.
- In the case of an absence on rotation, making up the rotation day on a weekend as opposed to using PTO will be assessed on a case-by-case basis at the discretion of the rotation preceptor(s).
- Resident is responsible for updating Kronos to reflect days off prior to sign-off by manager.
- Ambulatory residents should work with their RPD and manager to identify opportunities for vacation/PTO.
- Residents are allowed bereavement pay per Froedtert’s policy. Time away for bereavement counts towards the 21 days away/year.

</table>

Add pay code of "PTO" and 8 hours under Amount.
Holidays

- Residents who staff in areas that are open on holidays are required to staff up to two 10-hour holiday shifts during the residency year (described under Resident Staffing Requirements).
- Time off for holidays is subtracted from PTO.
- Residents may elect to be present on rotation (instead of taking PTO) on holidays when not assigned to "staff" with approval of preceptor and residency program director.
- If an assigned holiday falls on a weekend, the resident can choose to either take a day off of rotation the week prior to or after the holiday OR count the holiday towards their weekend shift requirements. This should be arranged with the RPD and manager.

 Unscheduled Absences

- **For inpatient rotation/oncology staffing/inpatient staffing shifts:**
  - Contact central pharmacy at least two hours prior to shift start time (if possible) to notify them of illness/unscheduled absence (414-805-2690). The manager on-call will cover your scheduled shift if staffing. Depending on the circumstances, you may be asked to work an alternate shift to make up the missed staffing day. Also notify your RPD.
  - If on rotation, notify your preceptors and residency program director of the absence as soon as possible.
- **For ambulatory rotation/retail staffing shifts:**
  - Contact the on-call leader/coordinator at least two hours prior to shift start time (if possible) to notify them of illness/unscheduled absence (pager: 414-314-1369) regardless if you are on rotation or staffing
  - If staffing, the on-call leader/coordinator will seek coverage options for your scheduled shift. Depending on the circumstances, you may be asked to work an alternate shift to make up the missed staffing day.
  - If on rotation, the leader on-call will notify your preceptor(s), RPD, and manager of the absence. The resident may also send notification if desired.
- PTO will be used for unscheduled absences unless other arrangements are made with preceptors and your manager.

Bereavement

- Eligible staff may be granted a maximum of three scheduled work days, if necessary, to observe a period of bereavement when having suffered the loss of a:
  - Parent
  - Brother/Sister
  - Grandparent
- See Bereavement FH-HR.023 for additional details

Bonus Shifts

- PGY1 and PGY2 pharmacy residents at Froedtert are eligible to pick up bonus staffing shifts to help meet department staffing needs. Residents will be paid a lump bonus sum for working a half shift ($320) or full shift ($640). **Bonus shifts will be paid every other pay period for the preceding four weeks.**
- The following criteria apply:
  - Shifts will be solicited and approved by a manager. Available shifts will be assigned and divided between interested residents per manager and residency program director discretion
Resident must be "meeting" or "exceeding" requirements of the residency program and meeting all applicable residency deadlines (i.e. low-performing residents should spend their time focusing on the residency program, not extra shifts)

- Residents will only be able to pick up shifts that do not conflict with residency responsibilities. This will mean that they would be eligible to pick up weekend shifts (when not staffing as residents) or the PM position (1700-2100) of open shifts
- Shifts are paid as a bonus in half and full shift blocks (e.g. working from 1700 until 2130, instead of 2100, is still paid as a half bonus shift). Residents will not be mandated to work bonus shifts
- ASHP (American Society of Health-System Pharmacists) duty hour guidelines apply
- Residents should report bonus shifts worked to their manager. For residents working bonus shifts in the inpatient setting at FMLH, they will be added to Humanity by the manager who has assigned the shift which will prompt payment

### Professional Leave/Business Days

- Professional time will be granted to attend the ASHP Midyear Clinical Meeting, the Great Lakes Resident Conference, Wisconsin Pharmacy Resident Conference, and other meetings approved by the Residency Steering Committee.
- Additional days may be approved for the resident to use to attend other professional meetings; however, both approval by the resident’s program director and manager must be obtained.
- Maximum time away from residency for professional leave/business day is 16 days

### Professional Meeting Attendance and Funding

- Froedtert & MCW Residency Programs are committed to supporting residents to attend professional meetings.
- Funding (full or partial) for attendance at professional meetings may be available based on the financial situation of the organization.
- Funding, if available, may be used to offset expenses such as conference fees, airfare, lodging, and transportation to and from the airport (if applicable) up to the maximum allowed stipend amount.
- Residency program leadership will communicate available funding prior to registration deadlines for key meetings attended by residents.
- Residents may elect to self-fund in order to attend a meeting if funds from the organization are not available.

#### PGY1 Residents

- If funding is available, the following is expected of PGY1 level residents
  - Attend the ASHP Midyear meeting, Vizient Pharmacy Council meeting, and one regional residency conference
  - Present a poster at the Vizient Pharmacy Council meeting
  - Travel to the ASHP Midyear / Vizient Pharmacy Council meeting on Friday and participate at least through mid-day on Wednesday.
- In the event that a resident is unable to attend one of these meetings or if funding is not available, additional arrangements will be made to allow the resident to present a poster and a platform presentation in an alternative setting

#### PGY2 Residents

- Attendance at the ASHP Midyear meeting is optional for PGY2 residents (unless required by the specific PGY2 program).
  - PGY2 residents who elect to attend ASHP Midyear are expected to attend the Vizient Pharmacy Council meeting immediately prior to the ASHP meeting and present a poster at the Vizient meeting.
PGY2 residents are expected to travel to the ASHP Midyear / Vizient Pharmacy Council meeting on Friday and participate at least through mid-day on Wednesday. Exceptions must be discussed with RPD and manager for approval.

- If funding is available, PGY2 residents may use funding to attend a different professional meeting or residency conference per the discretion of their RPD (e.g. ACCP, SCCM, HOPA, UGM, XGM, etc.).
- In the event that a resident is unable to attend one of these meetings or if funding is not available, arrangements will be made for the resident to present a poster and a platform presentation in an alternative setting.

**Expense Reports/Reimbursement**

- To complete an expense report:
  - Froedtert Scout (main screen) → Departments → Finance → Expense Reimbursement Requests (link: [https://fh.sp.froedtert.com/sites/1580/default.aspx](https://fh.sp.froedtert.com/sites/1580/default.aspx)) → New Form
  - Enter your information
    - Manager: Kristin Hanson
  - Select “Edit”
    - Enter a new line for each expense (flight, conference registration, hotel, etc) or can submit separate forms as these expenses arise

  ![Expense Report Form](image)

- To enter cost information:
  - Today’s date
  - Description
    - Flight = air/rail/bus
    - Company = 3000
    - Company description = Froedtert Hospital (should auto-populate)
    - Acct Unit = 40310
    - Account unit description = Pharmacy Residency Program (should auto-populate)

- Repeat above step for additional expenses (or submit separate reports)
- Attach PDF file of receipt
- Submit form → You should receive an email shortly confirming your submission
• All expense reports for travel must be completed prior to the trip or within two weeks from the return date in order to ensure reimbursement.
• All original receipts must be kept and attached to the electronic request.
• Residents are expected to keep track of their stipends and not request reimbursement for amounts greater than the allotted stipend.
• Contact your manager and RPD prior to planning any travel or before applying for reimbursement.

Professional Development/Seminar
PharmAcademic Evaluations

- All Froedtert residency programs utilize PharmAcademic for completion of resident performance evaluations.
- All evaluations should be completed by the last day of rotation or absolutely no later than the following Sunday.
- PharmAcademic evaluations are critical for monitoring both resident progress and rotation experiences and should be completed thoroughly.

Duty Hours Tracking Documents

- Residents are expected to self-monitor their compliance with duty hours per the Duty Hours Policy.
- Duty hours documentation/attestation should be completed monthly in PharmAcademic.
- Residents are expected to be proactive in notifying their RPD in anticipation of exceeding duty hours.
- Residents should avoid picking up moonlighting/bonus shifts that will cause them to exceed duty hours.

Resources for Residents

Laptops, Workstations, and Pagers

- Residents will be issued laptop computers, home work stations, and personal pagers to be used throughout the year
  - Laptops: Laptops should be used as a workstation while on rotation (including for clinical rotations) and can be used at home as well. Laptops should be stored in a secure location.
    - Residents should not store documents containing Health Insurance Portability and Accountability Act (HIPAA) information directly on computer hard drives. These documents should instead be stored on the Froedtert Network and accessed via the VPN or remote access portal.
    - Residents should also password protect all documents containing Health Insurance Portability and Accountability Act (HIPAA) information (see example below “Example: How to Password-Protect Patient Data”).
  - Workstations: A monitor, laptop docking station, mouse, and keyboard are issued for use at home.
  - Pagers: Pagers should be carried by the resident while on campus. Expected response time if paged is 15 minutes or less during business hours. Residents may have assigned “on-call” times when pagers need to be carried 24/7. Residents may download an app to manage pages on their phone.
- Any loss or damage to these items must be reported to the residency program director as soon as possible. The resident may be responsible for covering any fees related to loss or damage. Equipment must be returned at the end of residency training program.
- If there are issues with device performance (i.e. low battery life, missing applications, etc), the resident is responsible for contacting IT for fix through the myIT app (see Figure 4).
- If you need assistance in making the request, contact Deanna Zapfel, Administrative Coordinator, Deanna.zapfel@froedtert.com
**Figure 3.** How to Password Protect Patient Data

Click “File”, then “Protect Workbook.” From the drop-down menu, select “Encrypt with Password”, then create a password.

**Figure 4.** How to enter MyIT requests (Use Epic Credentials to Log In to MyIT)
Figure 4 (Cont.). How to enter MyIT requests (Use Epic Credentials to Log In to MyIT)

- Residents must log in to the Automated Provisioning System (APS) in order to request remote access. [Intranet link to APS]
  - Use Froedtert Network Credentials to log in, and select “Request for Myself” under “My Access”
  - Type in “remote access” using search bar to find line item below (see screenshot). Select Remote – Basic Remote Access.

Figure 5. How to Request Remote Access via APS

Remote Access Portal (to access Froedtert network on a personal computer)
- To access remote portal, Citrix must be downloaded. The IT help desk may be contacted at (414) 805-2101 to assist with download if needed.
- The VIP App must be downloaded and used as a method for dual authentication. The app should be downloaded on a personal device while onsite at a Froedtert Campus in order to link it with an account. Step-by-step instructions for setting up the VIP app can be found [here].

Back to [Table of Contents]
• Link to Froedtert remote desktop: https://remote.froedtert.com/
• Once logged in, the following applications should be available:
  • Epic
  • Microsoft Outlook, Excel, Word, PowerPoint, OneNote
  • Froedtert Intranet
  • Froedtert Network (H: Drive and I: Drive)

VPN (used to access the Froedtert network offsite on a Froedtert issued computer)
• In order to access the VPN, you will need access to the remote portal (above) and Cisco AnyConnect VPN Software on your laptop
• To see if you have the VPN software on your computer, click on the icon in Figure 6
• If you do not have the VPN application downloaded on your Froedtert issued laptop, request this application via a MyIT request under “Install Application” with the application being “Cisco AnyConnect VPN software”
• Instructions for logging into the VPN can be found here: I:\FMLH\PHARMACY\Residency Program\2022-2023\ALL Resident Orientation

Figure 6. VPN Access

Personal Device Access
• Residents may access email on a personal device (phone or tablet). The Froedtert Health Personal Device User Agreement must be completed in order to set up access on the device.
  • This can be found on Scout (also referred to as the “intranet”). Open internet explorer: Homepage > Departments > Information Technology (Froedtert Health) > Froedtert Health Information Technology > Mobile Devices > MyITPortal
Once access request has been processed, the Outlook App can be used to access email and calendar. Instructions on how to use the app are available on the IT website.

**Workplace**

- Workplace is the primary location for organizational communication. It is a work version of the Facebook platform.
- You will receive an email to set up a Workplace account.
- You should create a Workplace login using your Froedtert email address. You are also encouraged to download the Workplace app on your phone or tablet.
  - [https://froedtert.workplace.com/](https://froedtert.workplace.com/)
  - [Downloading the Workplace Mobile app](https://froedtert.workplace.com/)
- All employees are expected to keep up-to-date with organizational communications posted on Workplace.
- Employees are also encouraged to comment/like posts and post work-related content.

**WebEx Teams**

- All Froedtert employees have access to the WebEx and WebEx Teams platform to use for virtual meetings.
- In order to schedule a meeting using WebEx, create a calendar appointment and in the location, type @webex. Once the meeting is sent, login information will be populated within the body of the appointment.
• Additional capabilities are available using the WebEx Teams Application. This should be available on all Froedtert computers. It can also be downloaded onto a personal computer from: https://www.webex.com/downloads.html/.
• User guides for Webex Teams are posted here: https://fh.sp.froedtert.com/cwt/cwt/index.html

Figure 8: Meeting Set-Up Using Webex Teams

Email Expectations

• Residents are expected to check Froedtert email daily Monday through Friday during the work week. Responses to email are expected within 24 “business hours” of receipt.
• The specified response time is not required during PTO/vacation, however residents should use an out-of-office alert to notify sender of absence. Residents are expected to follow-up on email as soon as possible upon return.
• It is expected that residents create an email signature using the Froedtert approved template (see link below). Directions on how to set up an email signature can be found on the Scout page under Marketing and Communications Department – Brand Resource Center http://intranet.froedtert.com/?id=17585&sid=5

Figure 9: Setting an Out of Office Alert (Automatic Reply)
Dress Code

- The Froedtert Dress Code - Personal Appearance Policy is posted [here](#).
- In general, residents are expected to wear business casual attire while on rotation and staffing in decentral units, ambulatory clinics, outpatient pharmacies, or office environments.
- Scrubs are acceptable in the ED, OR, and pharmacy operations areas (central, day hospital, etc.). In the ED and pharmacy operations areas, residents may choose to wear their own scrubs or request Froedtert issued scrubs. In the OR, residents must wear Froedtert issued scrubs.
- More formal attire will be required for special events. For example, suits are required for presentations outside the organization (i.e. Midyear posters, Great Lakes Presentations)
- White coats are strongly encouraged when on a clinical rotation or when staffing decentrally.

White Coats

- Additional white coats may be ordered using the order form below.
  - The department will reimburse residents for embroidery, but the resident will be responsible for paying for the coat
- Deanna Zapfel, Administrative Coordinator, is the contact person for white coats should you need any additional coats throughout the year

Scrub Request Forms

- Froedtert issued scrubs must be worn in OR areas and may be worn in ED and pharmacy operational areas. The scrub request form is available on the Environmental Services site: [http://intranet.froedtert.com/?id=26274&sid=1](http://intranet.froedtert.com/?id=26274&sid=1)
- Complete form, obtain manager signature, and fax
- Contact Deanna Zapfel, Administrative Coordinator, with any questions

Business Cards

- Residents should place orders for business cards prior to September so that they arrive in time for recruitment season
  - This can be found on Scout [https://fh-printservices.com/internal/](https://fh-printservices.com/internal/)
  - Use the following titles:
    - “PGY1 Pharmacy Resident”
    - “PGY1 Health-System Pharmacy Administration and Leadership Resident”
    - “PGY1 Medication Use Safety and Policy Resident”
    - “PGY2 (Program Name) Pharmacy Resident”

Residency Project Resources

Residency Project Sharepoint

- Information about research protocols, posters, and presentations can be found [here](#)
- There are also past resident project abstracts, posters, and presentations on this website that may serve as examples

MCW Biostatistics Support

- Residents will have the opportunity to seek statistics support for their projects through the MCW Biostatistics Department.
• The Pharmacy Research Committee will prioritize and approve resident projects for statistics support based on complexity of the statistics required, type of project, likelihood of publication, and other factors.
• This document describes process for requesting biostatistics support.

Presentation and Poster Templates

• Presentations
  o Froedtert Health has created a presentation template that should be used when preparing presentations to be shared internally and/or externally.
  o Residents should use the template with the Froedtert & Medical College of Wisconsin logo.
  o Templates are located here: http://intranet.froedtert.com/?id=17587&sid=5
  o Pharmacy-specific templates will be shared via the I: Drive or email

• Posters
  o The Pharmacy Research Committee has developed templates to be used for student, resident, and staff-presented posters.
    ▪ Poster templates are located here: \FMLH\PHARMACY\Residency Program\2022-2023\Posters and Poster Templates
  o Instructions for printing posters:
    ▪ Go to Froedtert Scout page (main page) → Around Campus → Print Services
    ▪ Click “FH Print Request Site”
    ▪ Create a new account or log in to your account if you already have one

Back to Table of Contents
Enter width and height as shown in the screenshot below (note that this is the opposite of the way it is displayed in PowerPoint).

- Please make sure to enter your order correctly. If you enter incorrect specs your order will be cancelled and you will need to place your order correctly.

If you need help placing your order, please 262-532-5151/262-532-5152 or email printservices@froedtert.com.

Here is a list of COMMON sizes:

- 16x20
- 18x24
- 20x24
- 22x28
- 24x36

Sizes below CAN'T be laminated:
- 48x36 (use for trifold foamcore)
- 60x36
- 72x36

- Upload your file and enter a "Job Description"

Upload and Proof
Upload a file, name your job and include any instructions you think would be helpful. Back

Upload Artwork
**Please ensure your pop-up blocker is turned off to upload a file.
**The file cannot be dragged and dropped into the arrow.
**Please click on the arrow in the popup window and select file.

Please make sure your document pages match the number of pages listed on the previous screen. Otherwise you will need to re-upload your file.

- 36" x 56"
- 1 page
- single sided
- full color

File Upload Tools
Please make sure your file fits the page using the buttons.

Job Description
Zechlinski, Anne_Poster
- Make sure to rotate the image 90 degrees so that it fits on the page

- Final image should look like this before you continue

- Review final proof and “accept proof”
Complete billing and delivery information

Billing Information:
- Company Code: 2000 - Froedtert Memorial Lutheran Hospital
- Accounting Unit / Cost Center: 40118 PHARMACY RESIDENCY PROGRAM

Shipping Information:
- Choose "Pharmacy" for your department
- Include your cell phone
- If you are at ISC, you can choose to pick up your poster at the copy center

Address:
- Froedtert Hospital
- Annie Zernikus
- 5200 W. Wisconsin Ave.
- Milwaukee, WI 53226

Choose the address where you would like items to be delivered. If you are on Froedtert campus choose 5200 W Wisconsin

Posters should get delivered to mail room on 1st floor west hospital. You will get an email when they arrive.
Additional General Information

Wisconsin Prescription Drug Monitoring Program (ePDMP)

- Residents should register with the Wisconsin Prescription Drug Monitoring Program as it will be a needed resource to carry out staffing duties as a pharmacist (note that you will need to be licensed in order to register)
- Prescribers are responsible for checking ePDMP prior to prescribing any controlled substances at discharge or for use in the ambulatory setting
  - **Apply for access**
    - Go to: [https://pdmp.wi.gov/](https://pdmp.wi.gov/)
    - Click "Register"
    - Select “Healthcare Professional”
    - Complete required fields including your license number
    - Select a username and password
    - Look for confirmation email from “noreply@pdmp.wi.gov”
  
- **Logging in**
  - Go to: [https://pdmp.wi.gov/](https://pdmp.wi.gov/)
  - Type in username and password
  - Click "Patient Report" to look up a patient

Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS) Certifications

- Froedtert offers certifications in Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS)
- PGY2 residents in Critical Care and Emergency Medicine and PGY1 acute care, PGY1 HSPAL, and PGY1 MUSP residents are required to maintain ACLS certification. ACLS is optional for other PGY2 residents.
- Residents are expected to complete ACLS training prior to starting ICU or ED rotations or staffing in these areas.
- BLS is required for all residents who will be working in the outpatient/retail settings in order to administer immunizations.

**Enrollment**
- Enrollment is completed through The Learning Center by searching for ACLS or BLS
- Prior to being able to access materials for the course, a manager must approve the resident’s enrollment via The Learning Center
- Residents may take one project day to complete the course. Residents are responsible for scheduling Part 2 of ACLS/BLS based on their rotation/staffing schedule

**Figure 10.** Registration in The Learning Center for ACLS and BLS Training

- **ACLS**
  - Online portion takes about 7 hours and requires knowledge of CPR as well as ability to identify basic rhythms. This portion is very comprehensive and does take some preparation to pass. Some course materials are provided, although the use of other resources may be helpful
  - "Megacode" portion (Part 2) is scheduled separately and occurs off-site (usually across the street within the WAC building). Participants are required to run a code without the assistance of others. This portion takes about 4 hours and occurs after the online portion is completed
  - Completion of both portions of the course is required in order to pass

**Parking**
- Residents must adhere to their assigned parking location.
  - On Saturdays, Sundays, and major holidays, residents may park in patient parking structures (Parking area 1 on 92nd street and 3 on 87th street).
  - During off-Peak Times (Mon-Fri, 6PM-8AM), residents may park in parking area 1 or parking area 3. Must arrive AFTER 6PM and leave BEFORE 8AM.
- Residents are encouraged to use technology for participation in off-site meetings using WebEx in order to minimize travel time.
- Additional details about parking can be found in the parking handbook.
• Parking Scout Page: [http://intranet.froedtert.com/?id=358&sid=1](http://intranet.froedtert.com/?id=358&sid=1)

**Project Days**

• Residents may be allocated project days at the discretion of their residency program director. These days are to be used for program-related projects and research activities.
• The number of days and when they can be taken will vary based on the residency program.
• Residents may choose to work remotely on their project days but should be available via WebEx, email, and/or cell phone.

**Working Remotely**

• Some pharmacy department staff have transitioned to work-from-home (WFH) full-time or in a hybrid model. Generally, residents will be expected to work-from-home if completing a rotation in these areas.
• All informatics team members are permanent WFH; center for medication use and stewardship pharmacists are currently in a hybrid model.
• If a resident intends to work-from-home in a location outside of the local area (ie, their home in the Milwaukee area), their RPD and/or manager must be contacted to approve this arrangement in advance.

**Vizient Committee Involvement**

• Residents may elect to join the Vizient Pharmacy Network Committees of their choosing at the start of the residency year
• This elective experience will provide residents the ability to participate in projects and network with individuals at academic medical centers across the country
• The Froedtert team has been involved in the following committees:
  o Ambulatory Pharmacy Development
  o Business of Pharmacy Enterprise
  o Cancer Care
  o Med Use Informatics and Technology
  o Professional Development Workforce
  o Quality Safety and Compliance
  o Research
  o Supply Chain Optimization

**Academia Opportunities**

• Academia and precepting opportunities are available through Concordia University of Wisconsin (CUW) School of Pharmacy, the Medical College of Wisconsin (MCW) School of Pharmacy, and University of Wisconsin-Madison (UW) School of Pharmacy
• An optional teaching certificate is available through the Medical College of Wisconsin

**Research Certificate**

• Residents have the option of completing a formal Pharmacy Research Certificate over the course of residency training.
• Residents are encouraged to discuss participation in the Research Certificate with their program director.

**Pharmacy Society of Wisconsin Membership**

• [Pharmacy Society of Wisconsin](https://www.pharmacywisconsin.org) membership dues are covered by Froedtert & the Medical College of Wisconsin for all pharmacy residents and staff.
• PGY1 residents who are in their first year of practice receive their first year of registration free regardless of employment and are encouraged to register with PSW and affiliate with Froedtert.
• PGY2 residents who are new to Froedtert will be added to Froedtert’s member list within the first half of the residency year.

Wellness and Resilience Resources
• In addition to residency programming to address wellness, resilience, and prevention of burnout, Froedtert Health offers a variety of wellness resources to all employees.
• Many of these are listed on the Wellness Works intranet page: [http://intranet.froedtert.com/wellnessworks](http://intranet.froedtert.com/wellnessworks)
• The Employee Assistance Program (EAP) also offers a variety of services that are included within the Froedtert benefits package at no extra charge: [http://intranet.froedtert.com/EAP](http://intranet.froedtert.com/EAP)

Excellence in Action
• This platform can be used to submit recognitions for fellow residents, other pharmacists/pharmacy staff members, or other healthcare professionals or staff who went above and beyond to help you, a patient, or others.
• Link: [http://intranet.froedtert.com/?id=24359&sid=5](http://intranet.froedtert.com/?id=24359&sid=5)

COVID19 Resources and Guidance
• Information regarding COVID19 changes quickly. Employees are encouraged to visit the intranet pages below for the most up-to-date information. Residents are also encouraged to carefully review organizational and departmental communications regarding this topic as they are released.
• Information from Internal Occupational Health regarding COVID19 exposure or symptoms is available [here](#).
• General information about COVID19 at Froedtert can be found [here](#).
• Clinical resources about COVID19 can be found [here](#).
• Froedtert residents will adhere to any Froedtert Health mandated business travel restrictions due to COVID19.
• All staff must wear a mask when working in patient care areas.

Figure 11. Froedtert & MCW Mobile App and Screen2work
The Medical College of Wisconsin (MCW) Pharmacy School Teaching and Learning Certificate Program offers an innovative and interprofessional learning environment that prepares the educators of the future for success in didactic and experiential settings.

**PROGRAM BENEFITS**

**Innovative**  Our curriculum embraces active learning pedagogy, employing team-based learning (TBL) and utilizing technology to enhance the learning experience. Participants may gain experience with several educational platforms, including ExamSoft, TopHat, Storyline Articulate, GoAnimate!, and NeehrPerfect.

**Interprofessional**  Collaborative, interprofessional learning is a cornerstone of MCW’s teaching philosophy. Participants will have the opportunity to participate in interprofessional educational sessions with local health professions students, including physicians, nurses, medical interpreters, anesthesiologist assistants and others.

**Flexible**  We provide on-demand, web-based learning sessions and a two-year program completion window to provide flexibility for participants to complete requirements at their own pace.

**Personalized**  The small size of our program enables us to provide personalized support and feedback to program participants. All participants will have a formal mentor to encourage their professional growth throughout the program. Academic Educator Distinction is available for participants who desire additional training and experience to prepare for a career in academia.
TEACHING CERTIFICATE PROGRAM STRUCTURE

- Participants may elect to complete the program requirements over 1 or 2 years
- Required learning modules are provided as a combination of live educational seminars and recorded web-based lectures
- Didactic learning opportunities are available in several core MCW Pharmacy School courses, including the longitudinal Patient Care Lab and the Integrated Sequence therapeutics classes

Residents

The program is designed to facilitate achievement of PGY1 and PGY2 ASHP residency program objectives relating to teaching and precepting

TEACHING CERTIFICATE REQUIREMENTS

At a minimum, participants will engage in the following activities at the MCW Pharmacy School:
- Attend introductory session “boot camp” at the beginning of the academic year (July)
- Complete required monthly modules (live and remote sessions offered)
- Deliver two hours of didactic lecture
- Lead one Patient Care Lab activity
- Facilitate six Patient Care Lab activities
- (Co)-Precept one IPPE/APPE student
- Develop a teaching portfolio and personal teaching philosophy

Available live/online modules include:
Teaching and Learning Styles • Curricular Design • Teaching with Technology • Evaluation and Assessment Strategies • Preceptor Essentials • Academia Structure, Rank & Promotion • Learning Objectives • Effective Presentations • Scholarship of Teaching and Learning • Interprofessional Education • And Many More!

PROGRAM COSTS

The cost of the program for practicing pharmacists is $400. A discounted enrollment cost of $100 is available for MCW Preceptors participating in the Preceptor Benefits Program, bronze-gold level. Complimentary enrollment is provided for pharmacists currently enrolled in a residency program.
Pharmacy Research Certificate Overview

Residents have the option to complete a formal Pharmacy Research Certificate over the course of their residency training. The certificate is optional for most residents. However, individual residency programs have the opportunity to require additional components as part of certificate completion; they may also require the certificate as part of residency completion requirements. Discuss with your Residency Program Director what his or her expectations are for the Pharmacy Research Certificate.

The purpose of the Pharmacy Research Certificate program is to enhance the research development curriculum at Froedtert & the Medical College of Wisconsin (MCW) and to provide rigorous training for those interested in pursuing a career with continued scholarly pursuits.

Goals and Objectives:

1. Increase comfort and awareness of the various research processes and resources available
   a. Improve understanding of how to develop a research question
   b. Improve understanding of research processes
   c. Decrease barriers to research
   d. Familiarize participants to research to increase the number of research mentors
   e. Increase engagement in research
2. Improve quality of research project submissions
3. Improve the quality of research posters and presentations
4. Increase ability to apply appropriate statistical tests while writing a protocol and analyzing results

Program Leadership:

Chair:
Kristin Busse, PharmD, BCPS
Assistant Professor of Regulatory Sciences
Medical College of Wisconsin, School of Pharmacy
Regulated Research Oversight Program Director
Medical College of Wisconsin, Office of Research
Medical College of Wisconsin
8701 W Watertown Plank Rd
Milwaukee, WI 53226
kbusse@mcw.edu

Advisory Committee:
William J. Peppard, PharmD, BCPS, FCCM
Pain Stewardship Coordinator
Froedtert & the Medical College of Wisconsin
william.peppard@froedtert.com

Joel T. Feih, PharmD, BCCCP Clinical Pharmacist, Froedtert Hospital
PGY2 Critical Care Pharmacy Residency Program Director
Froedtert & the Medical College of Wisconsin
joel.feih@froedtert.com

Audrey Kostrzewa, PharmD, MPH, BCPS
Medical Utilization Pharmacist
Froedtert & the Medical College of Wisconsin
Associate Professor
Concordia University School of Pharmacy
audrey.kostrzewa@froedtert.com
Audrey.Kostrzewa@cuw.edu

Anne Zechlinski, PharmD, BCPS
Pharmacy Coordinator
PGY1 Pharmacy Residency Program Director
Froedtert & the Medical College of Wisconsin
anne.zechlinski@froedtert.com

Kajua Lor, PharmD, BCACP
Founding Chair/Associate Professor, Clinical Sciences Department
Medical College of Wisconsin School of Pharmacy
kblor@mcw.edu
**Components for Completion of the Certificate:**

- Attendance at 100% of Research Development Series sessions
- Active participation in Research Development Series sessions, whether joining live or virtual
- Completion of a brief quiz after each session [Required – due 30 days after each session]
- Program evaluation and feedback [Required – due 30 days after each session]
- Abstract submission [Required – due 4/1/2024]
- Poster or oral presentation at a national-, regional-, or state-level meeting [Required – due 6/1/2024]
- Poster presentation at MCW School of Pharmacy Research Forum in May [Required]
- Preparation of a manuscript suitable for publication in a peer-reviewed journal

Note: For Residents, Residency Program Director approval is required prior to granting the certificate. The Research Certificate is optional for most residents. However, individual residency programs have the opportunity to require additional components as part of certificate completion; they may also require the certificate as part of residency completion requirements. Discuss with your Residency Program Director what their expectations are for the Research Certificate.

**Research Development Series (RDS):**

Most sessions are approximately 1 hour long and will occur during a typical Academic Afternoon schedule. To achieve 100% attendance, participants will have to view the session either synchronously (in person or virtual) or asynchronously and complete a brief quiz. Sessions will be recorded and provided via Webex Teams.

Each session has associated objectives and recommended project activities. The participant is expected to complete the recommended project activities prior to the corresponding discussion session and then use the information from each session to modify and optimize that component of their residency project.

Residents are encouraged to reach out to Research Certificate Program leadership with questions or for further discussion. An overview presentation will be provided during New Resident Orientation. If planning to participate, a commitment to the program will be required by mid-July.
Inpatient Staffing Information

There are 2 primary staffing models in the department:

7/70 staff
- These pharmacists work Monday through Sunday (7 days) and work 10 hours each day. During this stretch, they work on their primary team as either straight AM shifts or PM shifts. They will then have the following 7 days off
  - What this means for residents is that you may have a different preceptor during each week of rotation. For example, during a 4-week rotation you may have the same preceptor on weeks 1 and 3 and a different preceptor on weeks 2 and 4
  - “A week” and “B week” are designated 7 day stretches at Froedtert to reflect the 7/70 model
  - Other departments, such as nursing, also follow this model
  - Staff are only paid for the hours they work (eg. 70). Some staff who work 7/70 would like to work a full 80 hours each pay period, so they will work an “8th day” during their off week. This is also a 10-hour shift, but usually not on their primary team.
  - 7/70 (and 8/80 staff) work every other weekend. Both 7/70 and 8/80 are considered full time employment.
  - ICU, oncology, transplant, cardiology, central (0630 and C1030), and ED pharmacists have 7/70 or 8/80 scheduling

8 hour rotating staff
- These pharmacists work primarily Monday through Friday, 8 hour shifts
  - Eight hour pharmacists work a mixture of AM and PM shifts. When possible, 8-hour pharmacists are scheduled for a week stretch on the same team for continuity of care. They then rotate to a different team or work PMs on their other week.
  - These pharmacists also work weekends, but less frequently (about every 4th).
  - Pharmacists in medicine, surgery, neurology, central (C8 position), and the pre-admission testing clinic work this type of schedule.

Resident Staffing Requirements

Weekday Staffing
- Residents staff in 1-2 week blocks at a time. A week consists of Monday-Friday PM shifts, usually 11:30AM to 10PM (10 hours).
- During a single week, the resident staffs on the same area. This allows the resident to become a part of the team, get to know the physicians and nurses on that unit, and most importantly, follow patient progress and the results of their interventions or recommendations.
- PGY1 residents work 9 weeks throughout the year on a medicine or surgical unit.
- PGY2 residents work 7 weeks throughout the year. An effort is made to schedule PGY2 residents in their area of specialty. PGY2s in administration, drug information, medication safety, and informatics will staff a mix of central and decentral staffing weeks.

Weekend Staffing
- Weekend staffing will occur on different weeks from weekday staffing blocks, during rotation weeks.
- These weekend staffing shifts may include working in central pharmacy, staffing a patient care team, providing med history/reconciliation help, etc. Weekend staffing shifts will also be 10 hours.
- PGY1 residents will work 12 weekends (Saturday and Sunday) throughout the year
- PGY2 residents will work 10 weekends (Saturday and Sunday) throughout the year unless additional staffing weekends are required by the PGY2 program (see PGY2 program-specific information for more details).
• PGY2 residents will be assigned weekends upon schedule publication. Residents must select weekends off around their staffing weeks if a 7-day staffing stretch is not preferred. Residents typically may make schedule requests on 2 of 4 weekends per schedule period.

Additional staffing for PGY1 residents will include:
• Four additional eight hour shifts distributed throughout the year to complete the staffing requirements.
• All PGY1 Residents will staff one 7-day week, Monday – Sunday, during the month of December. This week will occur over Christmas week or New Year’s week. PGY1 residents will be compensated by having the opposite 7-day week off from work.

Holiday Staffing
• Each resident must work two 10 hour holiday shifts
• PGY1 residents will work one of the following groups of holidays:
  o New Year’s Day and Thanksgiving Day
  o Christmas Day and Memorial Day
  o Once assigned, PGY1 residents may switch holidays with other PGY1 residents. Holiday switches with staff pharmacists require manager approval.
• PGY2 residents will also work two 10-hour holiday shifts (usually a major and minor) as assigned by clinical managers.
  o PGY2 Admin and MUSP residents will typically work July 4th between their 1st and 2nd year.
  o If an assigned holiday falls on a weekend, the resident can choose to either take a day off of rotation the week prior to or after the holiday OR count the holiday toward their weekend shift requirements (this does not apply to the 7/70 weeks worked by the PGY1 residents over the winter holidays).

Inpatient PGY2 Weekend Staffing
PGY2s will submit their weekend availability for each schedule when requested by the pharmacist scheduler. Residents may indicate “no availability” for up to two weekends per schedule. If a resident does not submit availability by the schedule request deadline, it will be assumed that the resident does not have a weekend preference.

High Demand Weekends
The following weekends are considered high demand weekends due to a large number of staff members requesting off. Availability requests for PGY2 residents during these weekends are not guaranteed and approval for the weekend off will not be known until schedule publication (approx. 6-8 weeks in advance). Manager approval must be obtained for extenuating circumstances.
• Internal PGY2s will be available to work two July weekends (at beginning of residency year)
• Labor Day Weekend
• The weekend after Thanksgiving (residents who are off Thx, will NOT be scheduled for this weekend unless otherwise requested)
• The weekends prior to and after Christmas (residents who are off Christmas may select to be off one of these two weekends)
• Spring Break/Easter weekends (mid/end of March)
• Memorial Day Weekend
• Last weekend in June and 1st weekend in July (end of year for external PGY2)
# Inpatient Staffing Model

Staffing model is subject to change. Log in to http://www.humanity.com to find the most updated version of staffing model document – “Pharmacist and Intern Staffing Model”, which is listed under ‘Shared Files’

<td></td>
<td></td>
</tr>
</tbody>
</table>

### Resident action steps = none

### Resident action steps
- Follow up with project leads to get any questions answered prior to submitting project rank list
- Submit rank list by deadline
- Build research team with help of project advisor
- Plan project and begin creating scoping presentation (template on residency SharePoint site)

### Resident action steps
- Schedule and coordinate necessary team meetings
- Distribute protocol draft to project team two weeks prior to scheduled PRC presentation date

### Resident action steps
- Send protocol draft to LaRae Bagnall and Research Committee Residents one week prior to PRC presentation date
- Respond to e-mail containing feedback within one week
- Distribute finalized protocol to team
- Complete e-bridge registration and submission

<table>
<thead>
<tr>
<th>July 2023</th>
<th>August 2023</th>
<th>September 2023</th>

### Resident action steps
- Midpoint check-in with PRC (via email)
- Request full Biostats support if needed
- Develop WPRC/Great Lakes abstract (due between mid-Jan and Feb 1st)

### Resident action steps
- Continue implementation and data collection for your project

### Resident action steps
- Develop WPRC/Great Lakes slide set and presentation

### Resident action steps
- End to RPD, at least 3 business days prior to submission deadline
- Submit abstract by deadline

### Resident action steps
- Continue working on project and providing updates to project team

### Resident action steps
- Submit slide set to RPD and project team prior to deadline
- Complete practice presentations

### Resident action steps
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Send project team prior to deadline
- Send to mentor/advisor by deadline
- Update WPRC/GLs slide to include final data and analysis

### Resident action steps
- Submit manuscript to RPD by deadline
- Close out study in eBridge, close out of project and tag off to project advisor

### Resident action steps
- Submit manuscript prior to deadline
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Develop project manuscript
- Present project at Froedtert (late May/early June)

### Resident action steps
- Manuscript submission deadline
- Project wrap-up

### Resident action steps
- Submit slide set prior to deadline if required
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Send to project team prior to deadline
- Send to mentor/advisor by deadline
- Update WPRC/GLs slide to include final data and analysis

### Resident action steps
- Submit manuscript to RPD by deadline
- Close out study in eBridge, close out of project and tag off to project advisor

### Resident action steps
- Submit manuscript prior to deadline
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Develop project manuscript
- Present project at Froedtert (late May/early June)

### Resident action steps
- Manuscript submission deadline
- Project wrap-up

### Resident action steps
- Submit slide set prior to deadline if required
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Send to project team prior to deadline
- Send to mentor/advisor by deadline
- Update WPRC/GLs slide to include final data and analysis

### Resident action steps
- Submit manuscript to RPD by deadline
- Close out study in eBridge, close out of project and tag off to project advisor

### Resident action steps
- Submit manuscript prior to deadline
- Present at WPRC/Great Lakes Conference

### Resident action steps
- Develop project manuscript

Back to [Table of Contents](#)
Other Program Details

PGY1 Project Days

- Residents are expected to take 5 project days throughout the course of the year.
- Residents should suggest their preference for project day in their pre-rotation communication to their preceptor. Days may be divided, for example, a resident may take the afternoon after an MCW lab or morning before academic afternoon and count as half a project day (however, resident is expected to be in person for academic afternoon).
- Residents may work from home for project days, but they must be available via WebEx, email, and cell phone.
- Residents may take no more than one project day per rotation, unless approved by RPD.

Rotation Attendance (Required Rotations)

- Residents are discouraged from taking vacation (elective PTO) during required rotations.
  - Residents will be allowed up to two days away from required rotations for sick days and PGY2/employment interviews.
  - Absences beyond two days must be made up either on weekends or by extending the duration of the rotation.
  - If a longer absence is known in advance, the resident may choose to move or extend the required rotation as per discussion with the RPD.
- Attendance at mandatory recruitment events, PGY1 interview days, Midyear, Great Lakes, and other required program activities are not included in time away from rotation.

ACLS Certification

- ACLS Certification should be completed prior to the first ICU or ED rotation.
- An additional project day will be allowed for completion of ACLS. It will be the resident’s responsibility to schedule Part 2 of the course at a time that aligns with the resident’s rotation schedule.
- Enrollment is completed online through The Learning Center. A manager must approve each enrollment request before content can be accessed.
- In the event that a resident already has ACLS certification, prior certification information should be provided to the RPD so that it can be entered in the Froedtert system. The resident does not need to repeat certification until certification expires.

Projects

Year-long Resident Project

- Over the course of the residency year, each resident will be responsible for planning and executing a longitudinal project.
  - Projects are assigned based on resident preference as indicated by resident rank-lists; most residents obtain one of their top choices.
  - A project advisor will be assigned to provide guidance to the resident throughout the year, however the resident is ultimately responsible for each element of the project.
  - The resident and project advisor will collaborate to add additional members to the research team as applicable per the scope of the project.
  - The resident will complete all of the items listed in the Residency Project Checklist throughout the year including:
    - Protocol submission – template available on the Residency SharePoint site
    - Vizient Abstract Submission – see Vizient website (due approx. Nov 1st)
    - Vizient Poster Submission during the ASHP Annual Clinical Meeting
    - Wisconsin Pharmacy Residency Conference or Great Lakes Residency Conference presentation (due approx. mid-January (WPRC) or Feb 1st (WPRC))
    - Great Lakes slide set submission – see Great Lakes website http://glprc.com/
    - Froedtert Resident Research Symposium (presentation of research to Froedtert & MCW Pharmacy Staff in late May/early June)
    - Manuscript
• Major project must be summarized in a written format acceptable for publication. Submission for ASHP Best Practice Award is also acceptable.
• Residents are strongly encouraged to pursue publication and/or presentation of their project in a peer-review setting upon completion of their residency.
  o Resources
    ▪ Numerous resources for residency project work are available on the Pharmacy SharePoint site

Medication Use Activities

• Each resident will contribute to the completion of both:
  o A Medication Use Evaluation (MUE)
  o A writing project (this may be a guideline, drug class review, drug monograph, etc)
  o These experiences will be incorporated into the medication use elective

• Medication Use Evaluation (MUE)
  o Pharmacy coordinators or CMU team members will serve as preceptors for the MUE learning experience
  o Residents may be asked to present results at a P&T Committee meeting. There is a chance that the P&T Committee presentation may fall outside of the assigned Medication Use Elective
  o Results from the MUE will be used to optimize medication use and ultimately impact patient outcomes
  o Rotation time will be allotted to work on the MUE, however, it is possible that some of this assignment may need to be completed outside of rotation hours

• Writing Project
  o Residents will complete a writing project during their Medication Use Elective. This might include the completion of a drug monograph, drug class review, or policy update depending on departmental need.
  o Residents will have time to complete this assignment during their Medication Use Elective.
  o Pharmacy coordinators and CMU team members will precept this experience and will be assigned based on familiarity/experience with the designated topic.

Academic Afternoon

• Academic Afternoon is a required weekly meeting for all PGY1 residents (unless completing required staffing).
• Academic Afternoon covers a variety of topics including: journal clubs, topic discussions, open discussions, medication error reviews, program updates, and administrative topic discussions.
  o 1300-1400
    ▪ 1st, 2nd, 5th weeks – Admin discussions (led by residents)
    ▪ 3rd week – Medication Safety Discussions (led by residents)
    ▪ 4th week – PGY1 Open Discussions (led by RPD or RPC)
  o 1400-1500
    ▪ Medication Use or Research Certificate topics (led by preceptors)
    ▪ Journal Clubs (led by residents)
  o 1500-1600
    ▪ Clinical Topic Discussion (led by preceptors and PGY2 residents)
• There may be times in which academic afternoon is held virtually in which case residents are encouraged to participate from home. During virtual meetings, residents will be asked to use Webcams to enhance the learning experience or discussion.

Research Certificate
• PGY1 residents are required to participate in the Research Certificate Program.
• Most research certificate activities are integrated into Academic Afternoon.

Journal Clubs
• Each resident will present one journal club throughout the year
  o A schedule for the year will be coordinated by the residents and posted on the Residency SharePoint site
• Resources for journal club preparation can be found on the Residency SharePoint site within the Journal Club Workspace

• Article requirements
  o Published in the previous 12 months, unless the trial is considered a pivotal/landmark trial
    ▪ For example, a resident may present on the NICE-SUGAR trial, which was published >1 year ago but is a pivotal trial. When the resident submits the journal for approval, the Journal Club Coordinator will confirm if the journal is considered a pivotal trial (see below)
  o Topic should be medication-related, original research, and either
    ▪ Something of interest to the resident
    ▪ A study expected to make a large impact

• Article/Preceptor Selection and Approval Process
  o Planned citation/article and recommendation for pharmacist preceptor should be submitted to Journal Club Coordinator (Audrey Kostrzewa) and Academic Afternoon Committee Residents at least 3 weeks prior for approval.
  o Residents should not ask their pharmacist preceptor to precept journal club articles prior to receiving approval from Audrey Kostrzewa. After receiving approval for the article and preceptor, it is the resident’s responsibility to contact the pharmacist preceptor and ask them to serve as the journal club preceptor.

• Preparation
  o The resident responsible for presenting should thoroughly review that article prior to presentation in order to generate discussion about the topic.
  o PowerPoint will NOT be used as a means to present the article. The presenter should assume that audience members have read the article.
  o If deemed necessary by the presenter, a handout (up to one page) may be created in order to provide additional background information about the topic. This should NOT be a detailed overview of the article.
  o The presenter should utilize their preceptor to assist with journal club preparation. For additional preparation assistance, they may contact the CMU team via cmu@froedtert.com.

• Article distribution
  o Academic Afternoon Committee residents will distribute an electronic copy of the article to residents.

• Participation
  o All PGY1 residents are expected to read the journal club article prior to coming to journal club (this should take about 30-60 minutes).
  o PGY1 residents should bring a paper copy of the article (i.e. laptops are not allowed) as a reference to use during the discussion.
  o The presenter should make an effort to generate discussion and call on people in order to make journal club interactive.

• Evaluation
  o Each resident’s pharmacist preceptor will be responsible for evaluating the journal club presentation in PharmAcademic.
  o A member of the CMU team will participate either in person or via phone to generate additional discussion around statistics and study design if needed.

Administrative Topic Discussion

• Each resident will be responsible for one administrative discussion presentation
  o Presentations should be approximately 45 minutes in length and contain active learning/participation
  o Guides for creating the presentation are available on the I:Drive:
    ▪ I-drive/PHARMACY/Admin Resident/Administrative Discussions
      • These resources should be used to guide your presentation preparation; do not plagiarize someone else’s presentation
      • Any copied slides should be appropriately cited within your presentation
  o Topics will be assigned by PGY2 HSPAL residents at the beginning of the year
Medication Error Review

- Each resident will review medication error reports for one assigned month (through the VIZIENT Safety Intelligence – Safety Event Reporting System), trend data, and present to the residency class at Academic Half Day as well as at the inpatient pharmacist weekly meetings for “A” and “B” week teams.
- A group of residents will be assigned to a quarter to review medication errors (will be a different quarter than MUE). Within the group, the residents will determine who is reviewing errors on any given day. Review will be done daily in order to ensure timely follow-up.
- Activities:
  - Evaluate all medication errors reported through the VIZIENT Safety Intelligence – Safety Event Reporting System for an assigned month (recommended to review submitted errors daily)
  - Residents will develop a presentation on the medication errors for the month to be presented at Academic Afternoon. They will also present the errors at a quarterly M&M conference.
- The error reporting program can be accessed via the Scout page under Applications or on your desktop under the icon Safety Event Reporting
- Additional information about this activity can be found on the Residency SharePoint site under Residency Manual > PGY1 > Medication Errors Learning Experience

Teaching and Precepting Experiences

IPPE Students (PGY1 residents will serve as the primary preceptors)

- Precepting may occur during scheduled rotations and/or staffing shifts
- Concordia IPPE students (P1, P2)
  - Usually at Froedtert for an entire week at a time (Fall and Spring)
  - Students will often be placed with one resident for half a day and then spend the other half of the day with another resident
  - One resident will be designated as the student’s primary preceptor and must submit the student’s final evaluation in E-value
    - Of note, residents must establish a profile in E-value before they can be assigned a student evaluation
    - Students must e-mail the school if a resident has not been set up as a preceptor so that they can be added in the system
- University of Wisconsin IPPE Students (P1, P2, P3)
  - Usually at Froedtert on Fridays or weekends for 8 hours at a time
  - Students will be with residents during PM and weekend staffing shifts
  - One primary preceptor will submit feedback via e-mail to one of the administrative residents, who passes it along to the school
- Medical College of Wisconsin (MCW) pharmacy students
  - Students will be completing IPPE rotational experiences on Fridays throughout the year
  - Students will be assigned to PM resident staffing teams. The resident who is staffing during the last week of rotation will be responsible for completing a student evaluation at the end of the rotation.
  - Email will be used to gather feedback from other residents throughout the rotation.
- Teri Mattek, education coordinator, will contact residents via email with student assignments. Teri is the main point of contact for any questions regarding student assignments and schedules.

APPE Students (staff pharmacists will be the primary preceptors)

- Resident roles are less formal and can vary based on the rotation.
- The rotation preceptor should provide the resident with guidance on expectations for precepting APPE students during the rotation.

Medical College of Wisconsin School of Pharmacy Patient Care Lab

- Each resident will be required to help facilitate a minimum of four patient care labs.
  - Residents are expected to attend a pre-lab planning meeting one week in advance of the lab, either in person or via phone.
  - Typically labs occur 8AM – 1PM and residents are expected to arrive 30 minutes prior to the start of lab (labs should be scheduled during non-staffing weeks).
Residents are responsible for reviewing all distributed materials prior to the pre-lab planning meeting.

- Patient Care Lab dates and topics will be distributed to residents within the first two months of residency. Residents are to rank dates based on their availability and topic interest. Residents are then notified of assigned dates.
- MCW Patient Care Lab Contact:
  Rachel Kavanaugh, PharmD, BCACP
  Assistant Professor, Co-Director of Professional Labs
  Phone: 414-955-2868
  Email: rkavanaugh@mcw.edu

**Preceptor Development**
- Residents will participate in several preceptor development topic discussions during the first quarter in order to prepare for precepting responsibilities.
- All residents (regardless of participation in the teaching certificate program) will participate in a training session at MCW during orientation.

**MCW Teaching Certificate Program**
- PGY1 residents are strongly encouraged to participate in this program
- A faculty mentor will be assigned to each resident
See section above, ‘Medical College of Wisconsin Teaching Certificate Program’ for more information

**Other Required Learning Experiences**

**Committee Membership**
- Involvement with one or more hospital or departmental committees is required - this list is subject to change.
- Assignments such as small projects, taking of minutes, etc. will be required.
- At the beginning of the residency year, residents will submit a rank list for their preferred committees.
- Residents are responsible for setting up a meeting with the committee chair/contact prior to the first committee meeting in order to discuss expectations.
- Options:
  - Medication Safety
  - Pharmacy Quality
  - Medication Warnings and Alerts
  - Pharmacy Practice
  - Pharmacy Research
  - Sterile Products
  - USP 800
  - System Operations
  - System Pharmacy Clinical Committee
  - Product Integration Committee
  - Pain Stewardship Committee
  - Epic Workgroup

**Administrative Responsibility**
- Involvement with one or more administrative responsibilities is required – this list is subject to change. One or more residents may be assigned to each task based on the amount of workload required.
- At the beginning of the residency year, residents will submit a rank list for their preferred administrative responsibility; more than one resident may be assigned to each
  - Residency Conference Coordinator
  - Academic Afternoon Coordinator
  - Student Clinical Trainer (Inpatient)
  - Historian
  - Duty Hours Tracking coordinator
  - Naloxone Utilization Coordinator
  - Resident Office Manager
  - Resident Time Study Coordinator

Back to **Table of Contents**
• Descriptions of administrative responsibilities can be found on the iDrive: 
\[\text{I:\FMLH\PHARMACY\Residency Program\PGY1 Admin Assignments}\]

**Recruitment Events** – options may change

Residents are required to attend recruitment events to recruit on behalf of the PGY1 program. Usually each resident participates in 1-2 events with more being assigned to those who elect to take residency administration rotations. Events may be in-person or virtual.

**Example events:**
- Pharmacy Society of Wisconsin (PSW) Annual Meeting
- Illinois Council of Health-System Pharmacists (ICHP) Annual Meeting
- Concordia University Wisconsin
- University of Michigan
- University of Minnesota
- University of Wisconsin – Madison
- University of Iowa
- Froedtert Virtual Events

**Milwaukee Citywide Resident Events**
- Citywide resident events occur at different pharmacy residency program sites throughout the Milwaukee area
- Typically there are three Citywide Events per year
  - July/Aug – Resident Research Symposium (Froedtert Hospital)
  - Aug/Sept – Preceptor Development (Concordia University)
  - March – Practice Resident Presentations (St. Luke’s Medical Center)
- Residents who are not scheduled to staff on these dates will be required to attend

**Time Study Analyses**
- In order to obtain residency program funding reimbursement from CMS, time studies must be completed documenting the amount of time spent directly precepting residents on rotation.
- Residents will be responsible for coordinating with their primary preceptors to electronically document and submit precepting hours for review.

**Medication Inspections**
- All residents will be assigned to complete monthly medication inspections in one area of the hospital or clinics.
- Medication inspections must be completed and documented prior to the 25th of each month.
- The resident is responsible for communicating with the area manager and pharmacy leadership regarding any medication issues identified during the medication inspection.

**Community Service**
- Each PGY1 resident is required to participate in 4 hours of Community Service during the academic year.
- Healthcare-related opportunities will be available including opportunities to support vaccination clinics and other community events.

**Other Experiences**

**Vizient/American Society of Health-system Pharmacists (ASHP) Midyear Clinical Meeting**
- Occurs in early December
- Activities:
  - Poster presentation (at Vizient meeting)
  - Resident recruitment
  - Others as required

**Wisconsin Pharmacy Resident Conference or Great Lakes Pharmacy Resident Conference (April)**
- Occur in early April (WPRC) and late April (PSW)
- WPRC – A state conference hosted by PSW in conjunction with PSW Educational Conference
GLPRC – A regional conference that offers the opportunity for residents from Illinois, Indiana, Kentucky, Michigan, Ohio, and Wisconsin to present their research projects to their peers and colleagues

Activities:
- Project presentation (10-20 minute presentation and 5 minutes for questions)
- Attendance and active participation during other resident presentations
- Others as required

**Departmental Meeting Attendance**
- Tuesday Inpatient Pharmacy Meetings (rotating staff meetings, grand rounds, M&M presentations)
  - Residents are expected to attend monthly M&M meetings when they are not staffing
- Wednesday Academic Afternoons
  - Attendance is required if not staffing or on PTO
  - Other meetings should NOT be scheduled during this time

**Mentorship Experiences**

Residents are responsible for scheduling monthly meetings in Outlook with their assigned mentors and advisors.

**Project Advisor**
- A project advisor is assigned to each resident based on their project topic.
- Residents and project advisors are expected to meet regularly, but the frequency may change throughout the year.
- The project advisor should review all project materials before they are submitted (protocol, abstracts, poster, presentation, etc).

**Residency Mentor**
- Residency mentors are pharmacists assigned to each resident. Their primary purpose is to provide residents guidance throughout the year with an emphasis on development and education
- Residents and mentors are expected to meet approximately monthly.

**Residency Advisor**
- Residency advisors are pharmacists assigned to each resident. Their primary purpose is to provide guidance throughout the year with an emphasis on overall professional development and career advancement.
- Residents and advisors are expected to meet approximately monthly.

**Evaluation and Documentation**

- Residents are responsible for contacting primary preceptors for each rotation 10-14 days prior to the start of each rotation with an introductory e-mail (see pre-rotation communication expectations).
- The link below contains contact information for each rotation: Rotation Contact List
- All FMLH residency programs utilize PharmAcademic for completion of resident performance evaluations.
- All evaluations should ideally be completed by the last day of rotation or absolutely no later than the following Sunday.
- **Important:** in order to complete the residency program, good progress must be demonstrated on all program goals. Residents must be performing at a level of “Achieved for Residency” on Goal R1 Patient Care and all associated objectives and on at least 70% of the remaining required goals. The resident must be at a level of “Satisfactory Progress” on any goals not achieved.
- Residents are responsible for monitoring their progress on residency objectives and must keep preceptors informed about objectives that should be focused on for each rotation. Progress will also be discussed at RAC meetings.

**Residency Advisory Committee (RAC)**

- Residency Advisory Committee meetings will be held in October, January, April, and June. Residents will attend all four meetings. Other attendees include the RPD, the resident’s mentor, advisor, project advisor, and preceptors from rotations that occurred during the previous quarter.
- The resident is responsible for ensuring all attendees are aware of the meeting and will be in attendance. All evaluations in PharmAcademic should be completed prior to the meeting.
- Residents will work with their mentors to upload updated development plans (see below) in PharmAcademic by October 1st, January 1st, April 1st, and June 1st in preparation for the quarterly meeting.
- During the meeting, residents will present their development plan and discuss updates to strengths, areas of improvement, or project milestones. Preceptors will also provide and reinforce feedback from respective rotations.

### Required Resident Project Components/Deliverables and Deadlines

| Requirement                                                                 | Notes                                                                 | Date Completed |
|-----------------------------------------------------------------------------|                                                                     |                |
| Complete CITI Program Training                                              | Due as soon as possible; if completed at different institution, change/add MCW as affiliation |                |
| Protocol Draft to PRC                                                       | Due one week prior to PRC Meeting                                   |                |
| Present Protocol to PRC                                                     | Date:                                                               |                |
| Protocol Approved by PRC                                                    | As Quality Improvement (QI) or Research?                            |                |
| Data Report Obtained (if applicable)                                        | Ideally begin in October                                           |                |
| Present Poster at Vizient Poster Session (based on availability of funding) | Abstract due: Oct 31st/Nov 1st  
Poster Session: Dec 3rd                                                |                |
| Great Lakes Presentation (based on availability of funding)                 | March to April  
• Draft slides to RPD and project team  
• Complete three practice presentations  
• Final slide submission by April |                |
| Manuscript                                                                  | May to June  
• Initial and final drafts to project team by end of May  
• Final draft to RPD by early June |                |

Other Requirements/Expectations

- Primary preceptor for IPPE 1-4 and assist with APPE student precepting
- Meet with mentor approximately once monthly
- Meet with RPD once monthly
- Contact primary preceptor(s) for each rotation 2 weeks prior to the start of the rotation with an introductory e-mail (see pre-rotation communication expectations)
- Evaluations should be completed in PharmAcademic the Sunday after each rotation
- Monitoring of progress on residency objectives and keeping preceptors informed about objectives that should be focused on for each rotation
- Attend site visits and Citywide resident events
- Administrative Assignment (see notes above)
- Committee Assignment (see notes above)
- Recruitment events
  - Attend sessions, assist with application review and interviews

Other Important Deadlines

**PGY2 Early Commitment**

- It is at the discretion of the PGY2 program director as to whether their program will participate in early commit. This decision will be communicated to the residents around October 1st.
- If the program is participating in early commit, interested residents should express interest in a PGY2 program by around October 15th.
  - In general, an email expressing the resident’s intent to apply should be sent to both the PGY2 program director of the program of interest as well as the resident’s PGY1 program director.
- The application deadline for PGY2 programs is usually around November 1st.
  - Applications require a letter of intent, CV, and three letters of recommendations at a minimum.
  - Applicants will be required to give a presentation during the interview.
- Decisions regarding early commit will be announced prior to or immediately following the ASHP Midyear Clinical Meeting at the discretion of the PGY2 RPD.

Communication between Rotations

- Residents are responsible for communicating year-long progress to each preceptor via a pre-rotation email.
- This email will be completed by the resident’s current preceptor and forwarded to the resident’s mentor and next primary preceptor.
- These emails will not replace PharmAcademic evaluations but will briefly supplement the resident’s progress to better bridge the end of a rotation and start to another
Pre-Rotation Communication Expectations

Below are the elements that should be included in pre-rotation communication as well as an example of an exceptional pre-rotation email.

Goals:
- In order for residents and preceptors to adequately prepare for the rotation, residents must provide preceptors with rotation goals. Residents must state at least 3-4 goals that they would like to work toward. Goals should be specific and appropriate for the time assigned to the rotation. For 1-2 week rotations, residents may only have 1-2 goals.
- Example good goal: Become familiar with the selection and narrowing of antibiotic therapy and overall treatment of community acquired vs. hospital acquired pneumonia in the ICU setting
- Example poor goal: Improve knowledge of antibiotics - too broad
- Example good goal: Increase comfort and confidence in making recommendations and interacting with physicians during patient care rounds
- Example poor goal: Increase confidence - too broad

Learning Style:
- Additionally, it is helpful if residents provide information about their learning style. Residents should be able to provide a general description of what is most effective for them to learn.
- Example: I like to be quizzed on new information, I am a hands on learner - I learn by doing, I like to observe first prior to trying new things on my own

Schedule:
- Preceptors should be notified with any meetings, staffing days, and if a project day will be scheduled during the rotation. Since schedules are likely to change, residents should provide preceptors with any updates on the first day and throughout the rotation.

Deadlines/Competing Priorities:
- Residents are encouraged to communicate with their preceptors about other things that are on their plate around the time of their rotation.
- For example: presenting journal club on 10/15, teaching philosophy is due on 11/1, applying for early commit for critical care, application due 11/1.
- This is not meant to be an excuse but rather a way to help residents and preceptors set deadlines for any activities that may be required during that rotation.

Strengths and Opportunities for Improvement:
- The goal for this portion is for residents to incorporate feedback from previous rotations and communicate it forward to their next preceptors.
- Example: My identified strengths on my previous rotation were ability to thoroughly review a patient profile identify drug-related problems and ability to prepare topic discussions for students. Opportunities for improvement were my time management in working up patients, improving confidence by speaking up more on rounds, and looking up information prior to asking for the answer from my preceptor

Example Pre-Rotation Email

Goals (These should be measurable and specific, you do not need this many goals, 3-4 is appropriate):
1. Be able to analyze a complex patient and make drug therapy plans and interventions as needed
2. Gain confidence in making recommendations to the team; enhance my communication skills
3. Better understand the pharmacology and appropriate use of antiepileptic drugs in the critical care setting (indications, appropriate orders, side effects, therapeutic drug levels, etc.)
4. Better understand therapies for **common disease states** seen in the NICU (i.e., TBI, SAH, status epilepticus, CNS infections, brain tumors, stroke, neurological disorders, and common neurosurgical procedures)

5. Become more familiar with **neurosurgical procedures** and related medication use issues:
   a. Which meds to hold, which meds are unnecessary/necessary (med rec)
   b. Which meds are necessary to use with certain procedures or devices and which to avoid

6. Broaden and deepen my understanding of the appropriate use of **antibiotics**, especially in the NICU patient population and be able to recognize **pharmacokinetic** changes which occur in patients with traumatic brain injury, CNS infections, and other neurological states

7. Become familiar with **NICU-specific orders** and better understand which drugs can/cannot be used on the regular hospital floors

**Strengths:**
- Thorough profile review
- Precepting students

**Areas for Improvement:**
- Efficiency
- Confidence
- Looking up information before going to preceptor for answers

**Schedule:**
- Tuesday, 2/24:
  - 1200-1300 Resident Candidate Interview Lunch
  - **DONE ON ROTATION BY 1615/1630** (central PM bonus shift @ 1700)
- Thursday, 2/26:
  - 1300-1400: Quality Review Committee Meeting
- Friday, 2/27: **NOT ON ROTATION, staffing pMed2**

**Deadlines/Competing Priorities:**
- Presenting journal club on 2/25, teaching philosophy is due on 2/28. Data collection for project is on-going, need to get 100 patients analyzed this month to stay on track.

**Project Day (for elective rotations):**
- Full project day on Monday, March 2\(^{nd}\)

**Learning Style and Feedback:**
- Repetition
  - I like to be able to WRITE things down and go back to them later, so if I take a lot of notes, that's why. I like to be able to see things later to remind me of what was talked about earlier
  - If asked a question, I like to have time to look into things I don't know or am not sure about
- Daily feedback is appreciated especially if I am not meeting expectations
- Working on self-reflection skills so would like the opportunity to assess my performance before getting feedback
