

*Continuing  
Medical Education*

# Lectures 2013

## Continuing Medical Education Lectures 2013

**Froedtert & The Medical College of Wisconsin** work with Medical College departments, individual faculty members and affiliated/community organizations to develop programming in the areas of primary care, specialty and sub-specialty topics in medicine and surgery. We organize lectures and activities with a focus on professional responsibilities related to patient safety and advocacy, new technologies, research, health care policy, ethics and compliance. We strive to present content that is based on the best evidence currently available and that is free of commercial interest and bias.

*To schedule a lecture or for more information, please refer to the contact names and numbers listed on page 4 of this booklet.*

Titles preceded by an asterisk (\*) and listed in blue indicate new lectures or course offerings for 2013.

	<b>Page</b>
Allergy/Asthma/Clinical Immunology.....	5
Behavioral Health.....	7
Cardiovascular Medicine .....	5
Dermatology .....	9
Emergency Medicine.....	9
Endocrinology.....	10
Gastroenterology and Hepatology .....	12
Genetics .....	12
Geriatrics.....	12
Hematology and Oncology .....	13
Infectious Disease.....	14
Neurology .....	14
Neuropsychology.....	16
Neurosurgery .....	16
Obstetrics/Gynecology .....	16
Orthopaedics.....	18
Otolaryngology .....	19
Physical Medicine and Rehabilitation.....	19
Plastic Surgery.....	20
Pulmonary Medicine.....	20
Radiation Oncology .....	21
Rheumatology.....	21
Surgery.....	22
Cardiothoracic Surgery.....	22
Colorectal Surgery.....	23
Minimally Invasive and General Surgery .....	24
Surgical Oncology .....	24
Transplant Surgery .....	26
Trauma and Critical Care Surgery .....	26
Vascular Surgery .....	26
Urology.....	27
Vascular Interventional Radiology .....	28
Allied Health Professional Speakers .....	29

To schedule a CME lecture or for more information, please contact:

## Allergy/Asthma/Clinical Immunology

**Dorothy Cheung, MD, Assistant Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Allergic Rhinitis*

**Asriani Chiu, MD, Associate Professor of Pediatrics**

*\*Asthma*

*\*Chronic Rhinitis*

*\*Urticarial/Angioedema*

*\*Drug Allergy*

*\*Anaphylaxis*

*\*Recurrent Infections*

**Jordan Fink, MD, Professor of Pediatrics, Medicine, Microbiology**

*\*Allergic Bronchopulmonary Aspergillosis*

*\*Hypersensitivity Pneumonitis*

**Leslie Gimenez, MD, Assistant Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Allergic Rhinitis*

*\*Food Allergy*

**Mitchell Grayson, MD, Associate Professor of Pediatrics, Medicine, Microbiology and Molecular Genetics**

*\*Recent Advances in Asthma and Allergy*

*\*Research in Allergy and Asthma*

*\*Development of Allergic Disease*

*\*Viruses in the Development of Allergies and Asthma*

**Kevin Kelly, MD, Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Allergy*

*\*Food Allergy*

*\*Allergic Rhinitis*

*\*Immunotherapy*

*\*Latex Allergy*

**James Lustig, MD, Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Acute Care*

*\*Chronic Management*

*\*Allergic Rhinitis*

*\*Sinusitis*

*\*Food Allergy*

## Allergy/Asthma/Clinical Immunology *continued*

**John Routes, MD, Chief of Asthma/Allergy/Immunology, Professor of Pediatrics, Medicine, Microbiology and Molecular Genetics**

*\*Overview of Primary Immunodeficiencies*

*\*Antibody Deficiencies*

*\*Lung Disease in Antibody Deficiencies*

*\*Antibody Replacement in Primary Innumodeficiencies*

*\*Newborn Screening for Severe Combined Immunodeficiency*

**Joshua Steinberg, MD, Assistant Professor of Pediatrics**

*\*Management of Refractory Chronic Urticaria and Angioedema*

*\*Innumologic Mechanisms of Allergen Immunotherapy*

*\*Diagnosis and Management of Food Allergy*

*\*Mast Cell Activation Syndromes*

**Monica Vasudev, MD, Assistant Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Paradoxical Vocal Fold Motion*

*\*Exercise-induced Bronchospasm and Laryngeal Dysfunction*

**James Verbsky, MD, PhD, Assistant Professor of Pediatrics, Microbiology and Molecular Genetics**

*\*Autoimmunity*

*\*Immune Regulation*

*\*Autoinflammatory Syndromes*

*\*Immune Deficiency*

**Kristen Volkman, MD, Assistant Professor of Pediatrics**

*\*Asthma*

*\*Allergic Rhinitis*

*\*Food Allergy*

*\*Stinging Insect Hypersensitivity*

**Heidi Zafra, MD, Assistant Professor of Pediatrics and Medicine**

*\*Asthma*

*\*Exercise-induced Bronchospasm*

*\*Food Allergy*

*\*Aeroallergens*

*\*Allergic Rhinitis*

## Behavioral Health

**Brad Grunert, PhD, Professor of Plastic Surgery, Professor of Psychiatry and Behavioral Medicine**

*Coping with Chronic Pain*

*Factitious Disorders in Medical Settings*

*Psychological Reactions to Hand Trauma*

*PTSD Following Work-related Injuries*

**Carlyle Chan, MD, Vice Chair for Professional Development and Educational Outreach, Professor of Psychiatry and Behavioral Medicine**

*\*Death by PowerPoint: Strategies for Effective Medical Lecturing*

*\*Mobile Technologies in Clinical Care*

*Recognizing and Treating Anxiety and Panic Disorders*

*\*Recognizing and Treating Mood Disorders*

*Stress Management*

*\*The Marketing of Medications: Lessons for Medical Ethics and Professionalism*

**Thomas Heinrich, MD, Associate Professor of Psychiatry and Behavioral Health**

*\*Choosing the Right Antidepressant*

*\*Delirium/Acute Confusional States*

**Mark Rusch, PhD, Associate Professor of Plastic Surgery, Associate Professor of Psychiatry and Behavioral Medicine**

*Body Dysmorphic Disorder*

*Conversion Disorders and Somatization*

*Factitious Disorders*

*Psychological Treatment of Insomnia*

*PTSD*

## Cardiovascular Medicine

**Marci Berger, MD, FACC, Assistant Professor of Medicine, Cardiovascular Medicine**

*Atrial Fibrillation Ablation*

*Device Therapy in Congestive Heart Failure*

*Interesting EKGs*

*Pacemaker and ICD Trouble Shooting*

*New Developments in Atrial Fibrillation*

**Michael Cinquegrani, MD, FACC, FSCAI, Interim Chief of Cardiovascular Medicine, Professor of Cardiovascular Medicine**

*The Role of Patent Foramen Ovale in Stroke*

*Treatment of Atrial Septal Defects with Percutaneous Closure Devices*

## Cardiovascular Medicine continued

### Michael Earing, MD, Associate Professor of Medicine and Pediatrics

*Adults with Congenital Heart Disease: The Lost Group*

*Extra Cardiac Complications Following Palliation of Congenital Heart Disease*

*\*Genetics of Aortic Aneurysms*

*Genetics of Congenital Heart Disease*

*LV Noncompaction*

*\*Marfan Syndrome and Other Connective Tissue Disorders*

*Syncope: When Should You Worry?*

### Robert Gleeson, MD, FACP, Diplomate, American Board of Clinical Lipidology

*\*Applying the ATP IV Guidelines (talk available summer 2013)*

*Best Practices for Using Advanced Lipid Tests*

*Case Discussion of Seven Common Lipid Problems*

*Familial Hypercholesterolemia - A Common Disease Commonly Missed*

*Understanding and Treating Lipids and Lipoproteins in Patients with Metabolic Syndrome*

*Understanding and Using Statins More Effectively*

### Claudius Mahr, DO, Medical Director, Heart Failure, Circulatory Support and Cardiac Transplantation, Assistant Professor of Medicine, Cardiovascular Medicine

*Advanced Heart Failure Management*

*Cardiac Transplantation*

*Heart Failure*

*Mechanical Circulatory Support*

*Quality Improvement in Heart Failure Care*

*Reducing Re-admission Rates in Heart Failure*

*Ventricular Assist Device Therapy*

### Catharine Malmsten, MD, Assistant Professor of Medicine, Cardiovascular Medicine

*Depression and Coronary Artery Disease*

*Ethnic Disparities in Coronary Artery Disease*

*Women and Coronary Artery Disease*

### Amitoj Marwaha, MD, Assistant Professor of Medicine, Cardiovascular Medicine

*Management of Acute Coronary Syndrome During Pregnancy*

*Omega 3 Fatty Acids and Cardiac Disease*

*Outpatient Management of CHF*

*The Utility of Pre-operative Stress Testing*

### Jason Rubenstein, MD, FACC, Assistant Professor of Medicine, Cardiovascular Medicine

*Atrial Fibrillation*

*Cardiac MRI*

*Sudden Cardiac Death Prevention*

### Jennifer Strande, MD, PhD, Assistant Professor of Medicine, Cardiovascular Medicine

*Management of Unstable Angina and NSTEMI*

*Updates in Diastolic Heart Failure*

### Jennifer Wright, MD, Assistant Professor of Medicine, Cardiovascular Medicine

*Atrial Fibrillation: Medical and Ablative Therapy*

*Indications for Permanent Pacemaker Therapy*

*Medical Syndromes with Associated Cardiac Rhythm Disorders*

## Dermatology

### Sam Hwang, MD, PhD, Chair, Department of Dermatology, Professor of Dermatology

*Cutaneous Lymphoma*

*Dysplastic Nevi (Moles)*

*Melanoma*

### Edit Olasz, MD, PhD, Assistant Professor of Dermatology

*Bullous Diseases*

*Cosmetic and Laser Dermatology*

*Dermatologic Surgery*

*High-Risk Non Melanoma Skin Cancer*

*Transplant Dermatology*

### Barbara Wilson, MD, Associate Professor of Dermatology

*Dangerous Drug Eruptions*

*Dermatology Emergencies*

*Hepatitis C and the Skin*

*Psoriasis*

*Skin Cancer Screening*

*Skin Infections in Immunocompromised Hosts*

## Emergency Medicine

### Stephen Hargarten, MD, MPH, Chair of Emergency Medicine, Professor of Emergency Medicine

*Alcohol-related Injury and Illness and Medicine's Role in Addressing this Issue*

*Firearm Injuries*

*\*Global Health*

*Injury Prevention*

*Professionalism*

*Travel-related Mortality and Morbidity*

## Emergency Medicine continued

### Jason Liu, MD, MPH, Associate Professor of Emergency Medicine

*Blast Injuries*  
*Intro to Disaster Medicine*  
*Mass Casualty Triage*  
*Medical Issues with Conducted Energy Weapons (Tasers)*  
*Tourniquets in Emergency Medicine*

## Endocrinology

### Ty Carroll, MD, Assistant Professor of Medicine

*Androgen Deficiency: The Nuts and Bolts of Male Hypogonadism*  
*Outpatient Diabetes Management for the Primary Care Provider*  
*Thyroid Nodules: Diagnosis and Management*

### James Findling, MD, FACP, Professor of Medicine

*The Adrenal Nodule: Not Always Incidental*  
*\*The Ten Rules of Cortisol: A Case-based Approach to Adrenal Pathophysiology*  
*Endogenous Hypercortisolism: An Endocrinopathy formerly known as Cushing's Syndrome*  
*Glucocorticoid Therapy: Myths, Mystery and Magic*  
*Low Testosterone Syndrome and Male Hypogonadism: Physiology and Pathophysiology*

### Srividya Kidambi, MD, Assistant Professor of Medicine

*Endocrine Hypertension*  
*Insulin Resistance/Metabolic Syndrome/Diabetes*  
*\*Obesity*  
*Polycystic Ovarian Disease and/or Hirsutism*  
*Resistant or Drug Resistant Hypertension*  
*Secondary Hypertension*

### Paul Knudson, MD, Associate Professor of Medicine

*Diabetes Mellitus Management in the Hospitalized Patient*  
*Diabetes Mellitus Type 1 Outpatient Management*  
*Diabetes Mellitus Type 2 Outpatient Management*  
*New Therapies for Diabetes Mellitus*

### Beth Lalande, MD, Assistant Professor of Medicine

*Diagnosis and Management of Polycystic Ovary Syndrome*  
*Hirsutism*  
*Menopause*  
*Women's Health*

### Steven Magill, MD, PhD, Associate Professor of Medicine

*Gestational Diabetes*  
*Incretins for Treatment of Type 2 Diabetes*  
*Insulin Pumps*  
*\*Primary Aldosteronism: How to Diagnose and Treat the Most Common Form of Secondary Hypertension*  
*Treatment of the Complex Patient with Type 2 Diabetes*  
*U-500 Insulin, in Whom and How*

### Jerry Marifke, MD, Assistant Professor of Medicine

*\*Gynecomastia*  
*\*Hyperthyroidism*  
*\*Hypothyroidism*  
*\*Male Hypogonadism*  
*\*Male Infertility*  
*\*Thyroid Nodules*

### Irene O'Shaughnessy, MD, FACP, Interim Chief, Division of Endocrinology, Professor of Medicine

*\*Diabetes in Pregnancy*  
*\*Endocrine Changes in Critical Illness*  
*\*Endocrine Disorders and Pregnancy*

### Shailendra B. Patel, MD, DPhil, FRCP, Professor of Medicine

*Diabetes: Diagnosis, Management and Update*  
*Genetic Disorders of Lipids: What an Internist Should Know*  
*Lipids, Atherosclerosis and Cardiovascular Risk Management*  
*Update on Drugs*

### Joseph Shaker, MD, Professor of Medicine

*Bone Disease Associated with Bariatric Surgery and GI Disease*  
*Hypercalcemia and Hypocalcemia*  
*\*Hyperparathyroidism*  
*Metabolic Evaluation of Kidney Stones*  
*Osteomalacia*  
*\*Osteoporosis*  
*Paget's Disease of Bone and other Bone Diseases*  
*Vitamin D*

### Denise Teves Qualler, MD, Assistant Professor of Medicine

*\*An Overview of the Diagnosis and Management of Osteoporosis*  
*\*Diabetes and Metabolic Bone Disorders*  
*\*Primary Hyperparathyroidism*  
*\*Vitamin D Deficiency*

## Gastroenterology and Hepatology

### Eric P. Cohen, MD, Professor of Medicine and Radiation Oncology

*\*Cancer and Kidney Disease*

*\*Diabetic Nephropathy*

*\*Kidney Transplant: Long-term Follow Up*

*\*Polycystic Kidney Disease*

### Jose Franco, MD, Professor of Medicine

*End Stage Liver Disease*

*Hepatitis B*

*Hepatitis C: Detection and Treatment*

*Liver Diseases*

*Non-alcoholic Fatty Liver Disease*

### Ehab Saad, MD, FACP, FASN, Assistant Professor of Medicine

*\*Basics of Peritoneal Dialysis*

*\*Better Ways of Long-Term Dialysis*

*\*Hypertension: The Silent Killer*

*\*The ABCs of Pee Dee with Zee*

## Genetics

### David P. Bick, MD, Professor of Pediatrics (Obstetrics and Gynecology)

*Genetic Evaluation of Patients with Neurodevelopmental Disorders*

*Genetic Screening – What Should I Offer to My Patients/Personalized Medicine*

*Using Whole Genome Sequencing in Clinical Practice*

## Geriatrics

### Edith Burns, MD, Professor of Geriatrics

*\*Dementia*

*\*Diabetes and Older Adults*

*\*Drugs and Aging*

### Kathryn Denson, MD, Associate Professor of Geriatrics

*\*Living/Housing Options for Seniors*

*\*Osteoporosis*

### Steven Denson, MD, Associate Professor Geriatrics

*\*Abuse and Neglect of Elders*

*\*Delirium in the Geriatric Patient*

*\*Geriatric Rehabilitation*

### Edmund Duthie, MD, Chief, of Geriatrics; Professor of Geriatrics

*\*Delirium in the Geriatric Patient*

*\*Falls in the Geriatric Patient*

## Hematology and Oncology

### Carlos Arce-Lara, MD, Assistant Professor of Medicine

*\*Adjuvant Treatment for Non-Small Cell Lung Cancer*

*\*Advances in Lung Cancer: What an Internist Should Know*

*\*Current and Future Medical Treatments for Small Cell Lung Cancer*

### Ehab Atallah, MD, Assistant Professor of Medicine

*\*Acute Lymphocytic Leukemia*

*\*Acute Myelogenous Leukemia*

*\*Chronic Myelogenous Leukemia*

*\*Myelodysplastic Syndrome*

*\*Myelofibrosis*

*\*Update on Hematologic Malignancies*

*\*What PCPs Should Know About Leukemia*

### Linda Blust, MD, Assistant Professor of Medicine

*\*Ethical Conflicts at the End of Life*

### Linda Blust, MD, Assistant Professor of Medicine; Jo M. Weis, PhD, Associate Professor of Psychology

*Behavioral and Medical Collaborations at the End of Life: Best Care for All*

*\*Mythbusters: Shattering Psychological Myths at the End of Life*

### Ann Catlett, MD, Assistant Professor of Medicine

*\*How to Talk with Patients About End of Life Planning*

*\*Management of Nausea and Vomiting*

*\*Using Opioid Analgesics*

### John Charlson, MD, Assistant Professor of Medicine

*Management of Soft Tissue Sarcoma*

*Primary Care for Breast Cancer Survivors*

### Christopher Chitambar, MD, FACP, Professor of Medicine

*\*Breast Cancer Update*

### Tim Fenske, MD, Associate Professor of Medicine

*\*Recent Advances in Hodgkin Lymphoma*

*\*Recent Advances in Non-Hodgkin Lymphoma*

### Ben George, MD, Assistant Professor of Medicine

*\*Emerging Trends in the Management of Resectable and Locally Advanced Esophageal Cancers*

*\*Evolving Paradigms in the Management of Pancreatic Adenocarcinoma*

*\*Is There an Ideal Neo-Adjuvant Strategy for Gastric Cancer?*

*\*Metastatic Esophageal Cancer: The Present and the Future*

*\*Relevance of Targeted Therapy for Gastric Cancer*

## Hematology and Oncology continued

### Sailaja Kamaraju, MD, Assistant Professor of Medicine

*\*Building A Survivorship Clinic*

*\*Survivorship Care Models*

*\*Cardiovascular Complications of Cancer Treatment*

*\*Chemotherapy Related Cardiotoxicity in Cancer Survivors and Novel Strategies for Prevention*

### Rafael Santa-Davila, Assistant Professor of Medicine

*\*Advances in Lung Cancer: What An Internist Should Know*

*\*Advances in the Treatment of Metastatic Lung Cancer: What Chemotherapy and How Much?*

*\*Lung Cancer Molecular Markers and Targeted Therapy*

### Roy Silverstein, MD, Chair, Department of Medicine, Professor of Medicine

*\*Emerging Concepts in Thrombophilia*

### James Thomas, MD, PhD, Professor of Medicine

*Cancer Clinical Trials*

*Cancer Drug Development*

*Colorectal Cancer*

*Gastrointestinal Cancers*

*Neuroendocrine Cancers*

### Lauren Wiebe, MD, Assistant Professor of Medicine

*Evolving Cancer Care in Uganda and Other Resource-poor Nations*

*Optimal Supportive Care of the Advanced Pancreas Cancer Patient*

*Tough Symptoms in the Cancer Patient*

## Infectious Disease

### Charles E. Edmiston Jr., PhD, MS, CIC, Professor of Surgery; Hospital Epidemiologist

*Reducing the Risk of Surgical Site Infections: Improving Surgical Outcomes Through Focused Interventional Practices*

## Neurology

### Karen Blindauer, MD, Associate Professor of Neurology

*\*Overview of the Treatment of Parkinson's*

*\*Parkinson's Disease and Sleep: From A to ZZZZ*

### Diane Book, MD, Associate Professor of Neurology

*Ischemic Stroke: Detection, Management, Prevention and Treatment*

*Stroke Centers: When and Why You Should Refer*

### Brian-Fred Fitzsimmons, MD, Assistant Professor of Neurology and Neurosurgery;

**Marc A. Lazzaro, Assistant Professor of Neurology and Neurosurgery; John Lynch, MD, Associate Professor of Neurology; Sam O. Zaidat, MD, MSc, Director, Neuro-Interventional Program, Chief of Neurointerventional Division, Professor of Neurology, Neurosurgery, Radiology**

*Acute Ischemic Stroke Endovascular Therapy Update*

*Advances in Stroke Prevention*

*Carotid Artery Disease*

*Carotid Artery Stenting Update*

*Cerebral Aneurysm*

*Endovascular Treatment of Cerebral Aneurysms and AVM*

*Endovascular Treatment of Hemorrhagic Stroke*

*Endovascular Treatment of Intracranial Aneurysms*

*Intracranial Atherosclerosis*

*Ischemic Stroke Update*

Dr. Zaidat also offers the following topics:

*Intracranial Stenosis*

*Management of Vertebral Body Compression Fracture*

*Vertebral Artery Origin Stenosis and Stenting*

*Vertebroplasty and Kyphoplasty*

### Ann Helms, MD, MS, Associate Professor of Neurology

*Neurologic Prognostication*

*Stroke*

*Traumatic Brain Injury*

### Bradley Hiner, MD, Professor of Neurology

*\*Deep Brain Stimulation: Pacemakers for the Brain*

### Mark G. Malkin, MD, FRCPC, FAAN, Chief, Division of Neuro-oncology,

**Professor of Neurology and Neurosurgery; Jennifer Connelly, MD, Assistant Professor of Neurology, Neuro-oncology**

*Advances in the Treatment of Metastatic Brain Tumors*

*Altered Mental Status in the Neuro-Oncology Patient*

*And the Good News Is ... (a lecture on the treatment of Glioblastoma Multiforme)*

*Glioblastoma Multiforme: Measures of Success and Failure*

*Leptomeningeal Metastases 1985-2010: plus ca change, plus c'est la meme chose*

*Management of Seizures in Brain Tumor Patients*

### Manoj Raghavan, MD, PhD, Associate Professor of Neurology

*\*Intracranial EEG in the Pre-surgical Evaluation of Patients with Epilepsy*

*Magnetoencephalography in the Evaluation of Patients with Epilepsy*

*Non-pharmacological Treatments for Drug-Resistant Epilepsy*

*Progressive Nature of Drug-Resistant Partial Epilepsy*

*Surgical Treatment of Epilepsy*

## Neurology continued

### **Katie Spangler, MD, Assistant Professor of Neurology**

*Cognitive and Mood Aspects of Parkinson's Disease*

*Essential Tremor*

*Huntington's Disease*

*Non-motor Symptoms of Parkinson's Disease*

*Parkinson's Disease*

## Neuropsychology

### **David Sabsevitz, PhD, Assistant Professor of Neurology**

*Everything You Need to Know about Neuropsychology from the Movies*

*Pre-surgical fMRI Language Mapping: Methodological Considerations*

*Time Course and Risk Factors Associated with Whole Brain Radiation-induced Injury*

## Neurosurgery

### **Jamie L. Baisden, MD, Associate Professor of Neurosurgery**

*Brain Death*

*Chiari Malformations*

*Spinal Disorders*

*Spinal Surgery*

*Spinal Trauma/SCI*

*Spinal Tumors*

### **Dennis J. Maiman, MD, PhD, Chair of Neurosurgery, Professor of Neurosurgery**

*Advances in the Treatment of Spinal Disorders*

*Spinal Cord Injury, Spine Stabilization, Effect on Outcome*

*Update on Spinal Surgery and Conditions*

## Obstetrics/Gynecology

### **William Bradley, MD, Assistant Professor of Obstetrics/Gynecology**

*Gynecologic Cancer Topics*

*Minimally Invasive Surgery*

### **Fredrik Broekhuizen, MD, Professor of Obstetrics/Gynecology**

*Contraceptive Update*

*Current Guidelines for Cervical Cancer Screening*

*How to Prepare for International Health Work*

*HPV-disease and Vaccination*

*Management of Preterm Labor*

*Prevention of Prematurity*

### **Timothy Klatt, MD, Associate Professor of Obstetrics/Gynecology**

*Fetal Heart Rate Monitoring*

*Patient Safety and Quality Improvement*

### **Paul Lemen, MD, Associate Professor of Obstetrics/Gynecology**

*Alternatives to Hysterectomy*

*Contraception Options*

*General Obstetrics or Gynecology Topics*

*Preconception Care*

### **Sumana Koduri, MD, Associate Professor of Obstetrics/Gynecology**

*\*Interstitial Cystitis*

*\*Pelvic Organ Prolapse*

*\*Pelvic Pain*

*\*Urinary Incontinence*

### **Raj Narayan, MD, FRCOG, FACOG, Associate Professor of Obstetrics/Gynecology**

*Dysfunctional Uterine Bleeding*

*Pap Smears*

### **Jacquelyn Paykel, MD, FACOG, Assistant Professor of Obstetrics/Gynecology**

*Botanicals in Women's Health*

*The Impaired Physician*

*Integrative Medicine – A Primer*

*Options in Managing the Menopause Transition*

*Women's Sexual Health*

### **Janet Rader, MD, FACOG, Chair of Obstetrics/Gynecology, Professor of Obstetrics/Gynecology**

*Cervical Cancer Topics*

*Clinical Trials*

*Minimally Invasive Surgery*

*Ovarian Cancer Topics*

*Personalized Cancer Treatment*

### **Katherine Schoyer, MD, Assistant Professor of Obstetrics/Gynecology**

*\*Basic Evaluation of Infertility and Treatment Options*

*\*Current Advances in Assisted Reproductive Techniques (from Intrauterine Insemination to IVF)*

*\*Menstrual Disorders*

*\*Polycystic Ovarian Syndrome*

### **Estil Strawn, Jr., Director, Division of Reproductive Medicine and Fertility, Professor of Obstetrics/Gynecology**

*\*Common Medications Used to Improve Fertility in Women*

*\*Endometriosis and Infertility*

*\*Evaluation and Management of Women and Men with Infertility*

*\*Fertility Preservation for Women*

*\*Genetics and Infertility*

*\*Polycystic Ovarian Syndrome*

*\*Pre-implantation Genetic Diagnosis*

*\*Recurrent Miscarriages*

*\*Uterine Fibroids*

## Obstetrics/Gynecology continued

### Denise Uyar, MD, Assistant Professor of Obstetrics/Gynecology

*\*Gynecologic Cancer Topics*  
*\*Minimally Invasive Surgery*

### Suzanne Walczak, MD, Assistant Professor of Obstetrics/Gynecology

*\*Contraception Best Practices*  
*Contraceptive Options for Medically Complex Patients*  
*Overview of Contraceptive Options*  
*Patient-centered Contraceptive Counseling*  
*Taking a Sexual History*  
*\*Transgender 101: Understanding the Needs of Your Gender-Variant Patients*  
*Updates in Long-acting Reversible Contraceptives*

## Orthopaedics

### Donald Hackbarth, MD, Professor of Orthopaedic Surgery

*Bone and Tissue Banking in the 21st Century: Current Treatment Options for Skeletal Defects and Musculoskeletal Injuries*  
*Diagnosis and Treatment of Benign and Malignant Bone Tumors*  
*Diagnosis and Treatment of Metastatic Bone Tumors*  
*Reconstructive Options after Limb Salvage Surgery for Malignant Bone Tumors*  
*Sarcomas of Bone and Soft Tissue*  
*Treatment Options for Failed Joint Arthroplasties*

### David M. King, MD, Associate Professor of Orthopaedic Surgery

*Avascular Necrosis of Bone*  
*Approach to Metastatic Bone Disease*  
*Benign or Malignant Bone Tumors*  
*Biopsy of Musculoskeletal Lesions*  
*Reconstructive Options Following Limb Salvage Surgery*  
*Soft Tissue Sarcomas*

### Joseph Schwab, MD, Assistant Professor of Orthopaedic Surgery

*\*Adult Hip Dysplasia*  
*\*Femoroacetabular Impingement*  
*\*Hip Joint Reconstruction*  
*\*Hip Pain/Labral Tears in the Young Adult*  
*\*Residual Complex Proximal Femoral Deformity in Adults*  
*\*Rotational Deformities of the Pelvis and Acetabulum*

## Otolaryngology

### Jonathan Bock, MD, Assistant Professor of Otolaryngology

*Conservation Laser Surgery for Laryngeal Cancer*  
*Management of Dysphonia*  
*Surgical Management of Dysphagia*

### Bruce Campbell, MD, FACS, Professor of Otolaryngology

*\*An Evidence-based Approach to Smoking Cessation*  
*\*Evaluation and Management of Thyroid Cancer*  
*\*HPV-related Oropharyngeal Cancers*

### David Friedland, MD, PhD, Professor of Otolaryngology

*Cholesteatoma and Chronic Ear Disease*  
*Cochlear Implants and Other Implantable Hearing Devices*  
*Dizziness and Balance Disorder*  
*\*Hearing Loss and Cardiovascular Disease*  
*Hearing Loss: Causes, Prevention and Treatment*  
*Tinnitus*

### David Poetker, MD, Associate Professor of Otolaryngology

*\*Chronic Rhinosinusitis – Diagnosis and Treatment*  
*\*Epitaxis – What You Need to Know*  
*Hereditary Hemorrhagic Telangiectasia (HHT)*

### Michael Stadler, MD, Assistant Professor of Otolaryngology

*\*HPV-related Oropharyngeal Carcinoma: What is the Evidence?*  
*\*In Office Ultrasound for the Head and Neck Surgeon*  
*\*Minimally Invasive Surgical Approaches to the Oropharynx*  
*\*Quality Care in Head and Neck Cancer*  
*\*Sialendoscopy: Indications and Interventions*

### B. Tucker Woodson, MD, Professor of Otolaryngology

*Daytime Sleepiness: Clinical Implications, Diagnosis and Evaluation*  
*Evaluation and Treatment of Snoring*  
*Obstructive Sleep Apnea: Medical and Surgical Treatment*  
*Obstructive Sleep Apnea: Update on Medical Morbidity Treatment Effectiveness*  
*Restless Leg Syndrome*  
*What's New in the Treatment of Upper Airway Surgery for Sleep Apnea and Snoring*

## Physical Medicine and Rehabilitation

### Diane W. Braza, MD, Chair of Physical Medicine and Rehabilitation, Associate Professor

*Herniated Discs – Evaluation and Treatment*  
*Spine Care – Nonsurgical Treatment Options*

## Physical Medicine and Rehabilitation *continued*

### Hong Wu, MD, Associate Professor of Physical Medicine and Rehabilitation

*\*Acupuncture and Pain Management*

*\*Acupuncture: What Is It and How Can It Help Our Head and Neck Patient?*

*\*Acupuncture in Women's Health*

*\*Introduction to Acupuncture*

## Plastic Surgery

### John Hijjawi, MD, FACS, Associate Professor of Plastic Surgery

*Breast Reconstruction and Radiotherapy: Can't We All Just Get Along?*

*Breast Reconstruction with Perforator Flaps and Biologic Substitutes*

*Breast Reduction Surgery: Options for Relief*

*MDCT Scanning and Perforator Flap Breast Reconstruction: New Options in Preoperative Imaging*

*Reconstruction of Partial Mastectomy and Breast Conservation Deformities*

### John LoGuidice, MD, Assistant Professor of Plastic Surgery

*\*Body Contouring Surgery After Massive Weight Loss*

*\*Delayed Breast Reconstruction After Mastectomy – It's Never Too Late*

*\*Facial Paralysis – Options in the Young and Old*

*\*Reconstruction of the Head and Neck for Cancer*

*\*Surgical and Non-Surgical Options for Lymphedema Therapy After Breast Cancer*

*\*The Plastic Surgeon's Role in Limb Salvage*

## Pulmonary Medicine

### Julie Biller, MD, Professor of Pulmonary Medicine

*Adult Cystic Fibrosis*

*Quality Improvement*

*Sarcoid, Bronchiectasis and General Airway Clearance*

### Stephen Dolan, MD, Associate Professor of Pulmonary Medicine

*\*Interstitial Lung Disease*

*\*Lung Cancer*

*Lung Transplantation*

### Rose Franco, MD, Associate Director of the Sleep Disorders Program, Associate Professor of Pulmonary Medicine and Critical Care

*Insomnia*

*Narcolepsy*

*Parasomnias*

*Restless Leg Syndrome*

*Sleep Apnea*

*Sleep Disordered Breathing and the Heart System*

*Sleep Disorders and Metabolic Consequences*

### Randolph J. Lipchik, MD, Professor of Pulmonary Medicine

*Alpha – 1AT Deficiency*

*Interstitial Lung Disease*

*Non-Tuberculosis Lung Infections*

*Sarcoidosis*

*Thromboembolic Disease: Diagnosis and Management*

*Tuberculosis*

### Kavita Munday, MD, Assistant Professor of Pulmonary/Sleep Medicine

*Excessive Daytime Sleepiness*

*Insomnia*

*Pulmonary Rehabilitation*

*Sleep Disorders: Management in PCP Clinics*

*Use of Portable Sleep Studies in Management of Sleep Apnea*

### Linus Santo Tomas, MD, MS, Associate Professor of Pulmonary Medicine

*Asthma*

*COPD/Emphysema*

*Interstitial Lung Disease*

*Mycobacterial Lung Diseases*

*Sarcoidosis*

*Tuberculosis*

## Radiation Oncology

### Candice Johnstone, MD, MPH, Cancer Network Medical Director, Assistant Professor of Radiation Oncology

*\*Palliative Radiation in Cancer Treatment*

*\*Radiation Therapy in Small Cell Lung Cancer*

*\*Stereotactic Radiation for Early Stage, Inoperable Lung Cancer*

### Candice Johnstone, MD, MPH, Cancer Center Network Medical Director, Assistant Professor of Radiation Oncology; David W. Johnstone, MD, Professor of Cardiothoracic Surgery

*\*Current Management of Lung Cancer*

*\*Radiation for Esophageal Cancer (+/or Multimodality Treatment)*

*\*Treatment of Early Stage Lung Cancer*

## Rheumatology

### Mary E. Cronin, MD, Professor of Rheumatology

*Idiopathic Inflammatory Myopathies*

*Systemic Lupus Erythematosus*

## Rheumatology continued

### Mary Ellen Csuka, MD, FACP, Professor of Rheumatology

*Osteoporosis*  
*Systemic Sclerosis*

### Richard Hariman, MD, Assistant Professor of Rheumatology

*Rheumatoid Arthritis: Diagnosis and Treatment*  
*Spondyloarthropathies*  
*Steroid Induced Osteoporosis*  
*Vasculitis*

### Paul B. Halverson, MD, Professor of Rheumatology

*Crystals (Gout CPPD)*  
*Interpretation of Lab Tests*  
*New Treatment Options*  
*Rheumatoid Arthritis*  
*Spondyloarthropathies*

### Irina Konon, MD, Assistant Professor of Rheumatology

*\*General Rheumatology*  
*Rheumatoid Arthritis*  
*Systemic Lupus Erythematosus*

### Ann K. Rosenthal, MD, Chief of Rheumatology, Professor of Rheumatology

*Calcium Crystal Associated Arthritis*  
*Current Options in the Treatment of Gout*  
*Musculoskeletal Complications of Diabetes*  
*Osteoarthritis*

## Surgery

### Cardiothoracic Surgery

#### Mario Gasparri, MD, Associate Professor of Surgery

*End-Stage Pulmonary Disease: Surgical Treatment Options*  
*Hyperhydrosis*  
*Surgical Management of End-Stage Lung Disease*  
*Surgical Management of Flail Chest*  
*VATS Lobectomy – Is Less More?*  
*Workup and Management of Pleural Effusions*

#### David W. Johnstone, MD, Professor of Surgery

*\*Esophageal Cancer Management in 2013*  
*\*Multimodality Treatment of Lung Cancer: Incremental Progress and Future Directions*

#### David W. Johnstone, MD, Professor of Surgery; Candice Johnstone, MD, MPH, Cancer Network Medical Director, Assistant Professor of Radiation Oncology

*\*Current Management of Lung Cancer*  
*\*Radiation for Esophageal Cancer (+/or Multimodality Treatment)*  
*\*Treatment of Early Stage Lung Cancer*

#### Alfred Nicolosi, MD, Professor of Surgery

*Standard and Minimally Invasive Surgery for Heart Valve Disease, including Mitral Valve Repair*  
*Surgical and Endovascular Treatment for Diseases of the Thoracic Aorta, including Marfan and Related Syndromes*  
*Surgical Treatment of Heart Failure – Transplant and Non-Transplant Options*  
*Ventricular Assist Devices – Mechanical Circulatory Support*

#### William Tisol, MD, Associate Professor of Surgery

*Lung Cancer Robotic Surgery: A Technology Looking for an Application?*  
*Treatment of Flail Chest and Fixation of Rib Fractures*  
*Update on Esophageal Surgery*

#### William Tisol, MD, Associate Professor of Surgery; William Rilling, MD, FSIR, Director of Vascular/Interventional Radiology, Professor of Radiology and Surgery

*Update on Lung Cancer*

#### James Tweddell, MD, Chief, Division of Cardiothoracic Surgery, Professor of Surgery

*Adult Congenital Heart Disease*  
*Atrioventricular Canal Defects*

## Colorectal Surgery

#### Lauren A. Kosinski, MD, MS, Assistant Professor of Surgery

*\*Anal Dysplasia*  
*\*Common Anorectal Conditions*  
*\*Diverticular Disease*  
*\*Fecal Incontinence*  
*\*Laparoscopic Colon and Rectal Cancer Surgery*  
*\*Rectal Cancer Management*

#### Kirk Ludwig, MD, FACS, FASCRS, The Vernon O. Underwood Professor, Professor and Chief, Division of Colorectal Surgery

*\*Current Management of Rectal Cancer*  
*\*Evaluation and Management of Diverticular Disease*  
*\*Evaluation and Management of Fecal Incontinence and Rectal Prolapse*  
*\*Management of Common Anorectal Disease*  
*\*Rectal Cancer Management*  
*\*Surgical Management of Inflammatory Bowel Disease*

#### Mary F. Otterson, MD, MS, Professor of Surgery

*\*Drug Absorption in the Patient Following Gastrointestinal Surgery*  
*\*Gut Failure and Short Bowel Syndrome*  
*\*Preparing the Medically Fragile Patient for Surgery*  
*\*Radiation Enteritis*  
*\*Small and Large Intestinal Crohn's Disease*  
*\*Ulcerative Colitis*

## Minimally Invasive and General Surgery

### Matthew Goldblatt, MD, FACS, Associate Professor of Surgery

*Anti-reflux Surgery Options*

*Complex Hernias and Abdominal Wall Reconstruction*

*Obesity Surgery: So many choices...which one is right for my patient?*

### Jon Gould, MD, Chief, Division of General Surgery, Associate Professor of Surgery

*\*A Comprehensive Review of Hernias and Recent Advances in Hernia Repair Techniques and Technologies*

*\*Advances in the Treatment of Achalasia*

*\*Bariatric Surgery*

*Gastric Electrical Stimulation for Gastroparesis*

*GERD, NERD, and LERD: A Surgeon's Perspective on Gastroesophageal Reflux Disease*

*\*Magnetic Sphincter Augmentation for Gastroesophageal Reflux Disease*

*\*Robotic Surgery*

### Andrew Kastenmeier, MD, Assistant Professor of Surgery

*Achalasia*

*\*Gastric Electrical Stimulation for Gastroparesis*

*GERD*

*Paraesophageal Hernias*

*Ventral, Incisional and/or Inguinal Hernias*

### Dean Klinger, MD, Associate Professor of Surgery

*Laparoscopic Adrenaectomy – Indications and Results*

## Surgical Oncology

### Kathleen K. Christians, MD, Professor of Surgery

*Pancreatic Neuroendocrine Tumors – An Indication for Extreme Surgery?*

*Treatment Sequencing for Pancreatic Adenocarcinoma – Method behind the Madness*

### Douglas B. Evans, MD, Chair, Department of Surgery, Professor of Surgery

*Contemporary Management of Localized Pancreatic Cancer*

*Surgical Controversies in the Management of Multiple Endocrine Neoplasia*

*Surgical Management of Papillary Thyroid Cancer*

### T. Clark Gamblin, MD, MS, Chief of Surgical Oncology, Associate Professor of Surgery

*Benign Liver Masses – Current Management*

*Biliary Strictures – Contemporary Management Recommendations*

*Current Management of Cholangiocarcinoma*

*Gallbladder Cancer*

*Knives, Needles, Catheters and Probes: Team Management of Colorectal Hepatic Metastasis*

*Laparoscopic Liver Surgery*

*Primary Liver Cancer: Strategies for Diagnosis and Management*

Dr. Gamblin will speak on all aspects of liver cancer.

### Amanda Kong, MD, MS, Assistant Professor of Surgery

*Breast Care for the Primary Care Physician*

*Current Treatment Strategies for Breast Cancer*

*Neoadjuvant Chemotherapy and Breast Cancer*

### Edward J. Quebbeman, MD, PhD, Professor of Surgery

*Biliary Tract Abnormalities and Tumors*

*Work-up and Treatment of Liver Tumors*

### Miraj Shah-Khan, MD, Assistant Professor of Surgery

*\*Male Breast Cancer*

*\*Chemo-prevention for breast cancer*

*\*Lobular Neoplasia of the Breast*

### Paula M. Termuhlen, MD, Professor of Surgery

*Physician Burn-Out and How to Avoid It*

*What is New in Melanoma?*

### Susan Tsai, MD, MHS, Assistant Professor of Surgery

*Management of Cystic Neoplasms of the Pancreas*

*Utility of Lean Body Mass as a Predictor of Surgical Outcomes*

### Kiran K. Turaga, MD, MPH, Assistant Professor of Surgery

*Advances in the Management of Peritoneal Carcinomatosis*

*Changing Paradigms for Treating Patients with Gastric Cancer and Positive Peritoneal Cytology*

*Isolated Hepatic Perfusion for Metastatic Ocular Melanoma and Other Malignancies*

*Isolated Limb Infusion for Locally Advanced Melanomas and Sarcomas*

*Minimally Invasive Surgical Oncology: How to Remove Cancer through a Keyhole?*

*Targeting Chemotherapy to the Sites of Disease*

### Tracy S. Wang, MD, MPH, Assistant Professor of Surgery

*Management of Thyroid Nodules and Well-differentiated Thyroid Cancer*

*Surgical Approaches to Adrenalectomy*

*The Surgical Management of Primary Hyperparathyroidism*

### Tina W.F. Yen, MD, MS, Associate Professor of Surgery

*Breast Cancer 101*

*Lymphedema After Breast Cancer Surgery*

*Role of Central Neck Dissection in Well-differentiated Papillary Thyroid Carcinoma*

*Surgical Management of Primary Hyperparathyroidism*

*Work-up and Management of Medullary Thyroid Carcinoma*

## Transplant Surgery

### Rebecca C. Anderson, PhD, Professor

*Adjustment to Breast Cancer*

*Adjustment to End-Stage Organ Disease*

*Psychological Factors Related to Organ Transplantation*

### David C. Cronin, MD, PhD, FACS, Associate Professor of Surgery

*Current Status of Liver, Kidney & Pancreas Transplantation*

*Liver Resection for Primary and Metastatic Disease*

*Medical Ethics*

*Repair of Bile Duct Injury*

*Transplant Immunosuppression*

### Christopher P. Johnson, MD, FACS, Chief of Transplant Surgery, Professor of Surgery

*Kidney Transplantation Update*

*The Role of Pancreas Transplantation in Long Term Management of Diabetes*

*Vascular Access for Hemodialysis*

### Allan M. Roza, MD, FACS, Professor of Surgery

*Current Status of Liver and Kidney Transplantation*

*The Role of Transplantation in the Treatment of Insulin-Dependent Diabetes*

*Vascular Access for Dialysis – Increasing the Options*

## Trauma and Critical Care Surgery

### Travis Webb, MD, MHPE, Associate Professor of Surgery

*Acute Care Surgery*

*Complex Abdominal Wall Hernias*

*Geriatric Trauma*

*\*Inguinal Hernias*

*Interprofessional Team Training*

*Surgical Education*

### John Weigelt, MD, DVM, MMA, Chief, Division of Trauma and Critical Care Surgery

*Professor of Surgery*

*Colon Trauma*

*MRSA Infections*

*Patient Safety and Quality*

*Perioperative Performance Improvement*

*Public Reporting of Hospital Data*

## Vascular Surgery

### Kellie R. Brown, MD, FACS, Associate Professor of Surgery

*Aneurismal Disease*

*Carotid Artery Disease*

*Peripheral Vascular Disease*

*Venous Disease*

### James B. Gossett, MD, Assistant Professor of Surgery

*Atherosclerosis Risk Factor Modification*

*Carotid Arterial Disease*

*Non-Invasive Vascular Laboratory*

*Peripheral Arterial Disease*

*Venous Thromboembolic Disease/Hypercoagulable States*

### Brian D. Lewis, MD, FACS, Associate Professor of Surgery

*Aneurismal Disease*

*Carotid Artery Disease*

*Peripheral Vascular Disease*

*Thoracic Outlet Syndrome*

### Peter J. Ross, MD, FACS, Assistant Professor of Surgery

*Aneurismal Disease*

*Carotid Artery Disease*

*Peripheral Vascular Disease*

*Thoracic Outlet Syndrome*

### Gary R. Seabrook, MD, FACS, Chief of Vascular Surgery, Professor of Surgery

*Aneurismal Disease*

*Carotid Artery Disease*

*Peripheral Vascular Disease*

## Urology

### Ken Jacobsohn, MD, Director, Minimally Invasive Urologic Surgery, Assistant Professor of Urology

*Advances in Robotic Prostatectomy: Achieving Trifecta Outcomes*

*Management of Small Renal Masses*

*Managing Non-Invasive Bladder Cancer*

*Robotic Partial Nephrectomy for Kidney Cancer*

*Robotic Radical Cystectomy for Muscle-invasive Bladder Cancer*

*Surgical Management of Upper Tract Urothelial Carcinoma: Robotic Nephroureterectomy*

### Jay Sandlow, MD, Professor of Urology

*Does the Biological Clock Tick for Both Men and Women?*

*\*Fertility Options After Vasectomy*

*\*Fertility Preservation Prior to Cancer Treatment*

## Urology continued

### William A. See, MD, Chair of Urology, Professor of Urology

*Active Surveillance as a Management Option for Prostate Cancer*

*Bladder Cancer*

*Hormonal Therapy in the Management of Prostate Cancer*

*Incontinence Following Prostatectomy*

*Male Lumpectomy: Organ-Sparing Options for Prostate Cancer*

*Potency Preservation*

*Prostate Cancer*

*Robotic Prostatectomy: The Real Story*

*To Screen or Not to Screen – That is the Prostate Cancer Question*

*Treatment Options for the Prostate Cancer Patient*

## Vascular Interventional Radiology

**William R. Rilling, MD, FSIR, Director, Vascular/Interventional Radiology, Professor of Radiology and Surgery; Robert A. Hieb, MD, RVT, FSIR, Associate Professor of Radiology and Surgery; Eric J. Hohenwarter, MD, Associate Professor of Radiology and Surgery; Parag J. Patel, MD, Assistant Professor of Radiology and Surgery; Sean M. Tutton, MD, FSIR, Professor of Radiology and Surgery; Sarah B. White, MD, Assistant Professor of Radiology and Surgery**

*Abdominal Aortic Aneurysm: Management including Minimally Invasive Options and Complex Aneurysm Repair*

*\*Carotid Artery Disease – Endovascular Management of Carotid Disease*

*\*Comprehensive Vein Center (Dr. Hohenwarter and Dr. Patel)*

*Diagnosis and Management of Lower Extremity Venous Insufficiency (Dr. Hohenwarter & Dr. Patel)*

*\*Hereditary Hemorrhagic Telangiectasia (HHT) (Dr. Rilling)*

*Image-Guided Therapy and the Surgical Management of Hepatic Malignancy*

*Percutaneous Radiofrequency Ablation and Percutaneous Cryoablation of Focal Malignancy*

*Peripheral Vascular Disease: Detection and Endovascular Treatment for Complex Lower Extremity*

*Vascular Disease with Emphasis on Limb Salvage*

*Reno vascular Hypertension: Diagnosis and Treatment*

*\*Thoracic Aortic Aneurysm and other Complex Aortic Pathologies – Endovascular Treatments including Complex Thoracic Abdominal Branched Repairs*

*TIPS for Treating Portal Hypertension*

*Update on Interventional Oncology and Current Clinical Trials (Dr. Rilling)*

*Uterine Artery Embolization for the Treatment of Symptomatic Uterine Fibroids*

*Vascular Malformations: Classification and Treatment (Dr. Rilling and Dr. Hohenwarter)*

*Vertebral Augmentation for the Treatment of Painful Benign or Malignant*

*Compression Fractures (Dr. Tutton, Dr. Hieb, Dr. Patel)*

All listed physicians can also combine their lecture with a member of the department of surgery faculty to offer a presentation addressing both the surgical and minimally invasive approach to the treatment of the above conditions.

## Allied Health Professional Speakers

### Neurology

**Linda Allen, RN, BSN, Epilepsy Monitoring Coordinator, Froedtert Hospital**

*Epilepsy 101*

*Epileptic vs. Non-Epileptic Seizures*

*Seizures in the Hospital Setting*

**Christopher Sheridan, RN, Program Coordinator, Parkinson's and Movement Disorders Program**

*Parkinson's 101*

### Pancreatobiliary/Endocrine Surgery

**Elizabeth Krzywda, APNP, Medical College of Wisconsin Nurse Practitioner**

*Pancreatic Cancer*

*Pancreatic Disease and Surgery*

*Primary Hyperparathyroidism*

*Thyroid Cancer and Thyroid Surgery*

### Transplant

**Froedtert & The Medical College of Wisconsin Abdominal Transplant Coordinator**

*Kidney Transplant 101*

**Leanne Graf, PA-C, MPAS, Medical College of Wisconsin, Transplant Hepatology**

*Liver Transplant 101*

### Vascular Surgery

**Debra Lanza, APNP, Department of Surgery**

*Follow-up for the Vascular Surgery Patient*

*Venous Ulceration Care*

*Wound Care for the Vascular Surgery Patient*

**Stephen Robischon, PA-C, MPAS, Department of Surgery**

*\*Aneurysmal Disease*

*\*Carotid Artery Disease*

*\*Peripheral Vascular Disease*

*\*Venous Thromboembolic Disease/Hypercoagulable States*

9200 W. Wisconsin Ave.  
Milwaukee WI 53226

414-805-3666

800-272-3666
