Continuing Medical Education Lectures 2020

The Froedtert & the Medical College of Wisconsin health network works with MCW departments, individual faculty members and affiliated/community organizations to develop programming in the areas of primary care and specialty and subspecialty topics in medicine and surgery. We organize lectures and activities with a focus on professional responsibilities related to patient safety and advocacy, new technologies, research, health care policy, ethics and compliance. We strive to present content that is based on the best evidence currently available and that is free of commercial interest and bias.

To schedule a lecture or for more information, please refer to the contact names and numbers listed on Page 4 of this booklet.

To download the app, visit froedtert.com/doc-refer on your Apple® or Android™ device and click download on the appropriate link.

Titles preceded by an asterisk (*) and listed in blue indicate new lectures or course offerings for 2020.

On the cover: Mehdi Hamandi, MD,
Associate Professor of Medicine
